

TruckX Expands Multilingual Support with Launch of Spanish and Punjabi App Languages

TruckX expands its driver and fleet app in Spanish and Punjabi languages, ensuring easier fleet management for diverse trucking fleets across the US.

Sunnyvale, California Sep 21, 2024 ([Issuewire.com](https://www.issuewire.com)) - TruckX, a provider of ELD and Fleet Management solutions, is pleased to announce that its Driver and Fleet Admin mobile apps now support more users from a wider geographic base both applications are additionally, now available in [Spanish](#) and [Punjabi](#) language. TruckX strives to provide the best [multi-lingual 24/7 on-call support](#) and user experience, allowing fleets to focus on the road ahead. Adding languages extends the reach of our advanced fleet management tools to non-English speaking users.

Enhancing Global Accessibility

The launch of [Spanish and Punjabi App languages](#) extends TruckX's comprehensive suite of products and features to a more diverse set of multilingual users that make up the US trucking industry. The inclusion of these languages reflects TruckX's commitment to inclusivity and its mission to enhance the ELD and Fleet management experience. Every day, millions of American consumers depend on trucking for the transport of vital goods. Making TruckX available in more languages helps break down the barriers to efficient workflow and compliance know-how in the trucking industry, helping more fleets run smoothly.

“With a rapidly growing base of 100,000+ drivers, we recognize the need for multilingual platform experiences,” says Tapan Chaudhari, Founder & CEO at TruckX. “Especially as TruckX positions itself as the most user-friendly ELD provider with a powerful support system. We are proud to build all of our in-house software, which allows us to launch these kinds of innovations, and are already working on

adding more languages soon.”

Impact of Multilingual Support

The addition of Spanish and Punjabi app languages is expected to have a significant positive impact on TruckX’s user base. By providing tools and support in more languages, TruckX empowers more users to take full advantage of its features, leading to better compliance, improved efficiency, and enhanced overall user satisfaction.

"Supporting multiple languages has been a frequent customer request and we are proud to now be able to offer these" says Clarissa Luttmann, Director of Product at TruckX
