

VISTA InfoSec Announces Upcoming Webinar on Securing Payment Card Data with Emerging Technologies

New York City, New York Sep 6, 2024 ([Issuewire.com](https://www.issuewire.com)) - VISTA InfoSec, a global leader in cybersecurity and compliance solutions, is pleased to announce an exclusive webinar titled **"Securing Payment Card Data with Emerging Technologies."** The webinar is scheduled for 25th & 26th Sep 2024 and will provide businesses with the latest insights on cutting-edge technologies designed to protect payment card data and meet PCI DSS compliance requirements.

As digital transactions become the norm, securing sensitive payment data has never been more crucial. Cybercriminals are constantly evolving their techniques, which poses significant risks to businesses handling cardholder data. This webinar will focus on how emerging technologies such as blockchain, tokenization, AI-based fraud detection, and end-to-end encryption can fortify payment card security and improve compliance with PCI DSS standards.

Key Highlights of the Webinar:

- The Role of PCI Compliance
- Threats and Challenges in Payment Security
- Real-Life Examples of Data Breaches
- Emerging Technologies in Payment Security
- How to Maintain and Ensure PCI Compliance?

With the rise of digital payments, ensuring the security of payment card data is one of the top priorities for businesses today," said Mr. Narendra Sahoo, Founder & Director (PCI QSA, PCI SSA, PCI QPA, PCI SSFA, CISSP, CISA, CRISC) at VISTA InfoSec.

This webinar is designed to provide attendees with practical, actionable steps on how to leverage emerging technologies to enhance their payment security measures and meet compliance standards like PCI DSS.

The webinar will be led by a seasoned expert in cybersecurity, with years of experience guiding businesses on compliance strategies and data protection. Attendees will have the opportunity to ask questions and engage with thought leaders on how best to apply these technologies to safeguard their payment infrastructures.

Who Should Attend? This webinar is a must-attend for:

- IT professionals
- Compliance officers
- Payment processors
- E-commerce businesses
- Financial institutions
- Any organization that handles payment card data

By attending this webinar, businesses can gain a clearer understanding of how emerging technologies are reshaping the landscape of payment security and how to stay ahead of the ever-evolving threats. Whether you are looking to fortify your existing PCI DSS compliance strategy or explore innovative ways to enhance payment security, this session will provide the tools and insights you need.
