

Apple is Going to Expand Its Retail Stores in Several Cities in India

Apple Inc. is now expanding its business in India and going to launch more new stores in several cities and recruit nearly 400 new employees for the stores.

Mumbai, Maharashtra Oct 25, 2024 ([Issuewire.com](https://www.issuewire.com)) - Renowned tech company Apple is getting ready to expand its retail stores in India. The company is now going to expand its business in cities like Pune, Bengaluru, Mumbai, and Delhi-NCR. Over the past couple of years, Apple Inc. has grown more than ever. The demand for this tech company has become more than ever. And that is why, the company is willing to increase the number of retail stores in the country. As of now, it is coming to know that the company is planning to recruit 400 employees for the new retail stores. All the new stores are going to be launched next year.

The report says, that the Indian headquarters of this company has already started recruiting new talents through various platforms. Now Apple is looking for employees for various positions. Thus, it can be expected that the company is growing in several ways in India. It is also coming to know that, right now Apple is hiring for Delhi's Select City Walk Mall and Mumbai's BKC stores. Currently, about 90-100 employees are working there. Hence, the company is willing to expand its talent base at a large scale. Apple is a global brand and has much recognition for its service. So, for people who are working or going to work for this company, it is quite a great opportunity for everyone's career.

It is also coming to know that the company is also offering part-time work opportunities to the freshers. Thus, starting a career with this global brand will be immensely helpful. In the big cities of the country, this brand has done a phenomenal job. From the Mumbai and Delhi stores, this company has earned a

total of Rs 800 crore. In sales, the Delhi store has contributed 60%, which is a huge amount. This company is known for its tech gadgets like iPhones, iPads, MacBooks, and AirPods. This has led them to a revenue of \$1.3 billion.
