

Atua AI (TUA) Elevates Enterprise Platform with Llama-3.1-Nemotron-70B-Instruct Integration and Expanded AI Capabilities

The integration of Llama-3.1-Nemotron-70B-Instruct strengthens Atua AI's enterprise platform with advanced AI capabilities, enhancing automation, content generation, and operational efficiency for businesses in the Web3 ecosystem.

Seattle, Washington Oct 23, 2024 ([Issuewire.com](https://www.issuewire.com)) - [Atua AI](#) (TUA) continues to advance its on-chain enterprise platform with the integration of Llama-3.1-Nemotron-70B-Instruct, expanding its AI capabilities to enhance business operations and developer tools. This strategic upgrade underscores Atua AI's commitment to delivering cutting-edge AI solutions powered by blockchain technology for enterprises in the Web3 ecosystem.

The integration of Llama-3.1-Nemotron-70B-Instruct, an advanced AI model developed in collaboration with NVIDIA, significantly enhances the platform's ability to generate high-quality content, automate processes, and provide advanced analytics. The model, designed to process complex queries and deliver precise outputs, will empower businesses to optimize workflows and streamline operations more effectively.

With these expanded AI capabilities, Atua AI strengthens its position as a leader in AI blockchain solutions, ensuring seamless interoperability and secure operations across multiple blockchains. These tools cater to the evolving demands of enterprises, offering scalable solutions for content creation, financial automation, and data management.

The addition of Llama-3.1-Nemotron-70B-Instruct marks a significant milestone in Atua AI's mission to provide robust, AI-driven enterprise solutions. As it continues to innovate, Atua AI remains committed to driving adoption and delivering enhanced productivity for businesses operating in the decentralized Web3 space.

About Atua AI

Atua AI is an all-in-one on-chain enterprise AI platform that integrates artificial intelligence with blockchain technology. It provides scalable, secure solutions for businesses, developers, and creators, enabling automation and operational efficiency within the Web3 landscape.
