

Autoini Team at GIIAS 2024 in Bandung: Discovering Exciting Automotive Innovations

Autoini.com Team Explores GIIAS 2024 in Bandung: Showcasing Exciting Automotive

Jakarta, Indonesia Oct 24, 2024 ([Issuewire.com](https://www.issuewire.com)) - Team [Autoini.com](https://www.autoini.com) in GIIAS 2024 in Bandung, Various Exciting Innovations by Automotive Products

For all automotive enthusiasts, industry professionals, and car lovers in Indonesia, the Gaikindo Indonesia International Auto Show 2024, staged on September 25-29 in Bandung, is an event not to be missed. The exhibition at the Sudirman Grand Ballroom promises a line-up of the latest cars, advanced technology, and the future of the automotive world. This time, Autoini.com also graced the occasion by covering the action and getting up close and personal with the top car brands.

One of Indonesia's leading car news, review, and comparison websites, Autoini.com graced the event with their presence to bring exclusive content to their audience. Their quest was to know the latest car

models, question the experts, and share all the thrilling updates of GIIAS 2024 with the swiftly growing community.

Autoini.com's Thrilling Experience in GIIAS 2024

With media passes in their pockets, the team at Autoini.com walked into this event, ready and prepared to meet experts in the automotive world and explore the latest vehicles. Clad in branded T-shirts, the team mingled with big names and new players of the industry, capturing everything from new car reveals to interesting talks about the future of cars.

This included directly liaising with representatives of major car brands to secure interviews and sought an insight into what was next in the Indonesian automotive market. Well, all this bore fruits with the team securing exclusive content that their readers would just love.

Major Brands at GIIAS 2024

Some of the largest and most innovative car brands in the world participated in GIIAS 2024. Here, Autoini.com presents some of the top brands with which they interacted during the event.

Hyundai: Hyundai brought the latest form of its newest electric vehicle model, which was prepared especially for the Southeast Asian market. With electric vehicles becoming more common these days, Hyundai's focus during this period is all about bringing affordable, efficient electric vehicles to Indonesia.

First, there is **Toyota**, always a big name at GIIAS. This year, the hybrid cars of Toyota will be exposed, featuring fuel efficiency combined with eco-friendly technology. Their hybrid line is getting more and more advanced with each passing year to help Indonesia take a step toward greener driving solutions.

Honda: The company launched some of its latest units during the event and boasted of its three top features in the market, namely reliability, performance, and innovation. Their latest units are introduced with both petrol and hybrid variants to answer the growing demand on the road for an alternative source of cleaner energy.

Wuling: Wuling is one of the favorite brands from China that is taking over Indonesia so fast. During GIIAS 2024, Wuling introduced their newest electric car unit to Indonesian drivers by focusing on more economical and practical aspects.

Nissan: During the event, Nissan came with its latest range of SUVs and electric cars. Further development in electric mobility with fresh design turned out to be an attraction for the visitors who looked for strong but eco-friendly cars.

Mitsubishi: The company is well-known for its robust SUVs and trucks. In the GIIAS 2024, Mitsubishi launched its latest models. These have been concentrated on performance and durable features. They are also developing with the addition of fresh technologies to enhance driving comfort.

Mazda: Sleek and stylish, Mazda's cars were on full display, combining both luxury and efficiency. The new models, however, emphasized premium features with advanced technology.

Suzuki: Suzuki unveiled the latest line of cars with prices considered inexpensive by their target audience. Their models are known to be rather cheap and reliable, therefore perfect for families and young drivers.

BMW: For the car enthusiasts in the line of luxurious cars, the latest edition of high-class BMW cars had

been one of the major attractions. The brand showcased electric and hybrid cars that combined high performance with sustainable driving.

Daihatsu: Daihatsu is well-known for reliable and value for money cars. They have brought in new models that are targeted for city drives. Their cars are kept in such a design and manner to be affordable and reasonable for practical usage and easy to handle in busy towns and cities.

[Time to Explore the Future of Electric Cars](#)

Electricity is also one of the hottest topics at GIIAS 2024. Since the Indonesian government encourages public transportation to be greener, many brands put their ambitions and plans for electric vehicles in Indonesia to the front. The latest steps in EVs and hybrid models come from Hyundai, Wuling, Nissan, and Toyota. What is most interesting for the Autoini.com team was knowing what they did or are going to do to make EVs more affordable and accessible for Indonesian drivers.

They interviewed representatives of these brands by asking relevant questions like:

When can we see more charging stations across Indonesia?

What are some challenges in making EVs as affordable as possible to the common man?

How do these companies intend to grow their electric vehicle market over the coming years?

These interviews enlightened the viewers of Autoini.com on the future of electric mobility in Indonesia.

Behind the Scenes and Industry Insights

Besides coverage of car models, representatives of Autoini.com were sent to panel discussions and industry talks on "The Future of Electric Vehicles" and "Sustainability in the Automotive Industry," respectively, where experts from different brands shared thoughts on how the industry is changing, especially in terms of cleaner energy and smarter car technology.

Meanwhile, the event saw the team from Autoini.com as active on social media. They regularly update live activities, photos, and behind-the-scene photos of whatever happens in GIIAS 2024 through Instagram Stories, Twitter posts, and Facebook updates.

Conclusion

GIIAS 2024 in Bandung was an excellent opportunity for the Autoini.com team to join the leaders in the industry, find out about the latest trends, and bring all interesting news to their audience. The event underlined how fast-paced changes are happening within the automobile sector, particularly with the rise of electric cars and environmentally friendly innovations.

Autoini.com is always committed to updating information to readers with the latest and most relevant. Their consistency in standing at the forefront of the industry has made them a trusted source for many Indonesian car enthusiasts and consumers alike.

The knowledge obtained from GIIAS 2024 will allow Autoini.com to update its readers on all crucial changes and developments that happen in the automotive world to always be informed and up-to-date.
