

Capto is Now on Windows: The Ultimate Screen Capture & Recorder App

Screen capture and recording for Windows with Capto. The best screen recording app is now available on Windows. Explore what Capto offers Windows users.

Udupi, Karnataka Oct 9, 2024 ([Issuewire.com](https://www.issuewire.com)) - Capto is a product by Global Delight that is popular in the tech world for engineering award-winning applications. Today, Global Delight has introduced one of its popular macOS products, Capto, to Windows. Capto has garnered immense love among Mac users, and with constant requests, it is now possible to take advantage of the best screen capture, recorder, and editing app on Windows 11 and 10. Capto: Screen Recorder & [Screen Capture for Windows](#) has the following features.

[Capto for Windows](#) brings flexibility, precision, and ease of use to professionals, educators, content creators, and everyday users. It is designed to simplify screen capture, video recording, and editing processes all in one.

Key Features of Capto for Windows:

Full-Screen Recording: Capture your entire screen with ease, perfect for creating comprehensive tutorials, walkthroughs, and presentations.

Window Recording: Record specific application windows for focused content creation, ideal for software

demonstrations and product tutorials.

Area Recording: Select and capture custom regions of the screen, offering tailored recording options for precise content.

Webcam Recording: Add a personal touch by recording yourself through the webcam, enhancing engagement in educational or presentation videos.

Text Capture: Effortlessly extract text from your screen, reducing manual input and making your workflow more efficient.

Powerful Editing and Exporting Options

Capto for Windows also features powerful editing tools, allowing users to trim, add text, and annotate their captures for a professional finish. It supports 4K recording at 30 and 60 fps, ensuring high-definition quality. Users can export recordings and images in a variety of formats, including AVI, MP4, WMV, PNG, JPEG, TIFF, and BMP.

Compatibility and Offline Access

Capto for Windows is fully compatible with Windows 11 and 10 (64-bit) systems and can be used offline, making it a versatile tool for users in any environment.

7-Day Free Trial and Availability

Capto for Windows is now available for download on the Microsoft Store. Users can enjoy a 7-day free trial, providing full access to all of Capto's features before committing to a purchase.

Quote from Global Delight Product Team

“We are thrilled to introduce Capto to the Windows platform. Our macOS users have consistently praised Capto for its simplicity, functionality, and efficiency. With this launch, we aim to extend the same seamless experience to Windows users, helping them enhance their workflows and create high-quality content with ease”
