

Digica to Participate in PSP Conference 2024 — HEALTH; Founder Rafał Janczyk to Speak on Safe Medical AI

Potsdam, Brandenburg Oct 7, 2024 ([Issuewire.com](https://www.issuewire.com)) - Digica, a leader in AI solutions, is proud to announce its participation in the upcoming PSP Conference 2024, to be held on October 10-11 at the Potsdam Science Park. The event, centered on cutting-edge advancements in healthcare, will gather leading experts, innovators, and stakeholders to discuss the evolving landscape of medical technologies, with a focus on artificial intelligence in medicine.

Rafał Janczyk, founder of Digica, will be a featured speaker at the conference. He will present a session on "Building Safe Medical AI," highlighting the critical aspects of safety and reliability in the deployment of artificial intelligence solutions in healthcare environments. His insights will focus on best practices for ensuring that AI technologies comply with stringent safety standards while delivering effective and trustworthy results for patients and healthcare professionals.

The PSP Conference 2024 will feature a diverse range of presentations and discussions, including best-practice examples, panel discussions, and showcases of pioneering projects. It serves as a platform for fostering collaboration within the healthcare sector and bridging the gap between research, innovation, and practical implementation.

Digica has been at the forefront of harnessing the potential of AI for healthcare, with projects that focus on medical imaging, diagnostics, and more. Their participation in PSP Conference 2024 underscores the company's commitment to advancing healthcare through innovation, with a strong emphasis on patient safety and efficacy.
