

Introducing Innovative Liquidity Solutions for Listed Companies and Shareholders

Conelia Management, a financial services firm, is proud to announce the launch of its comprehensive Liquidity Solutions, tailored to meet the unique financing needs of listed companies and their shareholders.

London, United Kingdom Oct 30, 2024 ([IssueWire.com](https://www.IssueWire.com)) - New Financing Opportunities: Long-Term Stability and Flexibility

The core advantage of Liquidity Solutions programs is their focus on long-term stability. Unlike traditional financing partners who sell off shares to raise capital, Liquidity Solutions's funding partners are committed to holding shares long-term, providing liquidity to companies and shareholders without negatively impacting market prices. This ensures that companies can raise capital or shareholders can monetize their positions without creating volatility in the market.

Liquidity Solutions financing programs are designed with the client's long-term interests in mind. By working with funding partners that are long-term holders, we can offer solutions that allow companies and shareholders to access capital or liquidity while maintaining market stability and confidence.

Tailored Financing Solutions:

Liquidity Solutions's services include a range of financing solutions that cater to the unique needs of each client:

- **[Equity Financing](#)** – Offering companies capital against newly issued shares, with up to 70% of issued shares being financed, and a total funding capacity of up to \$200 million. Funds are released in tranches, depending on the liquidity of the underlying shares, and are held by investment partners for a minimum of three years, ensuring a stable share price.
- **[Lending Against Shares](#)** – Providing direct lending against shares without the need for corporate or personal guarantees. With loans up to 80% of the value of the collateral and facility rates between 4% and 9% per annum, clients can enjoy extended repayment terms of up to 120 months, allowing for flexible financial planning.
- **[Commodities and Crypto Lending](#)** – Facilitating lending against highly liquid assets such as commodities and cryptocurrencies, offering businesses and investors the ability to access capital without selling their assets in volatile markets. Non-recourse lending terms and competitive rates ensure that clients retain control over their assets.

Proven Experience and Global Reach

With operations spanning over 20 countries, Liquidity Solutions brings a wealth of experience and global insight into every transaction. The company's team has successfully structured billions of dollars in financing, working with a wide range of industries and sectors. Conelia is committed to ensuring client privacy and security at every stage of the process.

Liquidity Solutions's team has extensive experience in navigating complex financial markets, which enables us to offer solutions that are not only effective but also secure and reliable for our clients.

Secure, Private, and Client-Centric Approach

Liquidity Solutions is dedicated to providing liquidity solutions that prioritize client confidentiality and security. By using structured financing facilities that are secured solely by collateral, clients can access the capital they need without exposing themselves to unnecessary risks.
