

InvoiceTemple Announces Major Updates in Free Billing Software for Small Businesses

InvoiceTemple would like to announce the news about its new updates on its site and web app. It is a user-friendly platform for new features such as an integrated payment gateway, email tracking, and many more to go!

Digitkode Software, a leading provider of invoicing and billing solutions, proudly announces the launch of its significant updates to its best invoicing software for small businesses and freelancers. To make it easy for the upcoming entrepreneurs and solopreneurs, InvoiceTemple has taken a tremendous initiative to provide efficiency in their financial management needs.

The latest upgrade gives Invoice Temple profound functionalities with its new calculator pages and template variations on its website. The user can use the facilities of email tracking, PayPal integration, and dashboard improvements in their web app features. These updates can improve the usability across the platform.

What's New on Website:

Introducing New Templates

[InvoiceTemple](#) has expanded its library of templates for invoices and receipts. The entire template in the template section shines with its new outlook. The functionalities of these templates have been enhanced to provide user-friendly experiences even for those who may not be non-software users.

- The user can have enhanced access to existing templates with extensive experience.
- Also, the arrival of template sections for invoices and receipts in the webpage has also been introduced. These enhancements help improve the branding of any business's financial paperwork.

New Calculator Sections

Plan your finances accordingly for different purposes. InvoiceTemple will be your friend in need.

- **NPS Calculator-** Understand the value of your Net Promoter Score. InvoiceTemple made it easy for you.
- **Pay Check Calculator-** The user can calculate their employee paychecks with taxes and deductions. So, you can experience the satisfaction of your customer.
- **Corporate Tax Calculator-** Get your comprehensive information on tax filing.
- **Income Tax Calculator-** Now, pay the right tax with the InvoiceTemple tax calculator for your income.

Generators for Easy Operations :

Free Project Estimate Generator: It helps your small business to create detailed project estimates on the go.

Free Quotation Generator: Improve the quality of your communication with your clients using well-generated professional quotations.

Web App Features

The major upgrades in InvoiceTemple web app features highlight email tracking, PayPal payment gateway integration, and dashboard upgrades.

- **Email Tracking:** Now, users can track when their invoice or PO mail has been viewed by the

customers. This feature enhances customer insights and improves your follow-up with them.

- **Integrated PayPal Payment Gateway:** InvoiceTemple has currently integrated with PayPal as an online payment option. You can directly proceed from their web apps. This simplifies online transactions for every small business owner and freelancer.
- **Dashboard Upgradation:** The dashboard has been upgraded with more details to check the overview, statistics of your sales, support, and so on.
