

Jordan Miller and New Project “MixMode” Unveil Debut Single “Struck By You,” Embracing AI and featuring Songwriter Lys

Austin-based producer Jordan Miller, guitarist Kristian Cruz, and songwriter Lys merge EDM with AI-driven vocals in new project MixMode, a genre-blending experience.

Austin, Texas Nov 1, 2024 ([Issuewire.com](https://www.issuewire.com)) - Music producer **Jordan Miller** is making waves with his latest venture, **MixMode**, as they drop their debut single, “**Struck By You.**” The project is an innovative blend of EDM and live instrumentation, created alongside longtime friend and guitarist **Kristian Cruz**—a former country band member and Jordan’s roommate from a decade ago. Their unique dynamic blends live guitar with electronic rhythms, a combination that has quickly garnered attention. “I’ve never seen a guitarist performing with a DJ before,” an audience member commented on their fusion style.

MixMode soon expanded to include songwriter **Lys**, a talented lyricist from Austin, Texas. Known for her catchy hooks and imaginative lyrics, Lys inspired the duo to craft music with a distinctive edge. Her influence is clear in “Struck By You” and upcoming tracks like “She Doesn’t Know,” which showcases a shift toward alternative punk. Lys describes the song as, “**‘Struck By You’ is about that moment when you meet someone new and everything seems perfect. You want to seize that moment because it feels fleeting even as you’re in it — if you miss the opportunity, it might be gone forever. It’s the ultimate honeymoon-stage song where everything has a golden glow.**”

Although Lys doesn't perform studio vocals, MixMode uses **AI-driven vocal tools** to capture her vision, keeping her lyrical creativity at the forefront while adding a futuristic touch. Though rooted in technology, MixMode emphasizes that all lyrical content is crafted by Lys, showcasing her raw talent and unique style. This tech-forward approach reflects the diverse backgrounds of MixMode's team, with expertise ranging from tech and finance to law, rather than traditional music industry paths. Their use of AI is an extension of their innovative philosophy, not a replacement for artistry.

Live performances from MixMode promise high-energy, with Jordan DJing and multitasking on instruments like keyboard and guitar, Kristian playing electric guitar, and Lys bringing her lyrics to life as the vocalist on stage. **MixMode's mission is clear: to transcend genre boundaries without the politics and drama often associated with the music industry.** This project is a celebration of music's limitless possibilities, weaving together EDM, rock, punk, and more into a seamless experience for all listeners.
