New York, United States Oct 23, 2024 ([Issuewire.com](https://www.issuewire.com)) - Babies are always the most vulnerable and need constant care to grow into healthy human beings. However, not everyone can be a full-time parent and look after their newborn children. This is why parents require child care, and Luv Baby Care by Shardia Ally is the most appropriate option, operating in Queens, New York. It is a small-owned business agency where workers adhere to the highest caregiving and education standards. The agency has a team full of dedicated staff who put the needs and requirements of their customers above all. Luv Baby Care's staff are also committed to providing a responsible and supportive team of caregivers, nannies, and baby nurses whose only focus is on the caregiving of the children and their wellbeing. In this environment, the development of babies happens as they are supposed to, and the caregiving pushes the babies to thrive.

The agency was started by Shardia Ally, a single mother born in Guyana. She migrated to the United States of America in the early 2000s and has since dedicated her life to the profession of child care. Since arriving in the States, Shardia has been engaged in professional baby nursing for 20 years and has become a certified medical assistant in the field. She did her internship with a pediatrician, and that is where the entrepreneur began to work with children. During her internship, Shardia worked with children, mainly from newborns up to the ages of 5 years. This period and her wonderful experiences inspired her to start her own business, giving birth to Luv Baby Care. During the lengthy years of her professional life, the life-changing experiences and well-earned skills gave Shardia the motivation and passion for creating a nanny agency. The goal behind setting up Luv Baby Care was not only to provide expert care service for babies but also to inspire others the way this field has done for Shardia herself.

Something that pushed the eminent professional further to establish her business is seeing the wide range of patients in need of proper assistance. With the object of empowering others, Baby Luv Care was established and now has become one of the most sought-after baby and child care agencies in the area. The business is centered on helping and training those who are interested in the baby care field. Apart from providing required services to children, the agency also provides ample training and courses to people who are interested in becoming certified as baby nurse specialists. The agency gives people the opportunity to work professionally in the field and, at the same time, open themselves up to the wonders of working with babies and parents. Ally's goal is not only to qualify caregivers but also to contribute to parents in need of support with their little ones. At the same time, Ally's agency works continuously to improve the baby care community.

At Luv Baby Care, the agency has a team of experts who work with people who are in dire need of childcare services. The organization offers specialized and experienced nannies to support and assist parents with various baby and childcare needs. The team's goal is to ensure satisfaction in the homes of its customers, and its services stand by this. Parents would find a progressive and knowledgeable early childhood education philosophy at the agency. This ensures that the professionals understand the fact that each child has different needs and requirements, and they learn things at different paces. This is why every care program exposes children to different environments and copious amounts of learning experiences. In return, this allows children to explore their self-awareness while gaining a sense of the world around them. The services offered by Luv Baby Care include several nannies and nurses specializations such as assisting in breastfeeding, potty training, sleep training, educational activities, light housekeeping, and indoor and outdoor activities.

The agency's nurses' requirements cover screening, background checks, CPR Certified Verification, complete vaccination, and Tdap vaccination. The available nurse and nanny positions are Female & Male Nannies/Nurses, Newborn Care Nurses, Live-In and Live-Out Nannies or Nurses, Nanny Housekeepers, Full-time and Part-time Nannies or Nurses, Emergency On-Call Nannies or Nurses, and 90 Day Replacement Warranty (No fee). Visit <https://www.luvbabycare.com/> for more information and book services.
