

MediMobile Unveils "Genesis" – The Next Evolution in Automated Medical Coding

MediMobile's leading automated medical coding solution Genesis transforms healthcare operations by automating charge capture & CPT and ICD-10 code selection. Providers document their visits in the EMR and we handle the rest.

Georgetown, Texas Oct 1, 2024 ([IssueWire.com](https://www.issuewire.com)) - MediMobile, the healthcare industry's leader in mobile charge capture solutions, is proud to announce the name of its cutting-edge AI-powered medical coding platform, [Genesis](#). Building on over 20 years of innovation, MediMobile continues transforming healthcare revenue cycle management with Genesis, marking a new beginning for healthcare automation.

Genesis: A New Era in Medical Coding

Genesis represents a revolutionary shift in how medical professionals approach coding, charge creation, and compliance. By automating the entire coding process—from the moment providers document their visit in the EMR to charge generation—Genesis eliminates the manual burden of charge capture.

MediMobile's advanced AI system analyzes clinical documentation in real time, offering immediate CPT and ICD-10 code recommendations that clinicians can accept or refine. The feedback loop within Genesis ensures continuous improvement, optimizing efficiency and accuracy over time.

Key Features of Genesis Include:

- **Automated Charge Creation:** Automatically generate accurate charges based on clinical documentation.
- **CPT Code Selection:** Minimize coding errors and optimize billing through automated CPT code recommendations.
- **ICD-10 Diagnosis Code Selection:** Simplify the complex process of diagnosis coding with real-time suggestions.
- **MIPS Measure Generation:** Effortlessly comply with MIPS requirements, ensuring accurate reporting.

MediMobile is an industry leader in mobile charge capture software and solutions, serving over 50,000 clinicians nationwide. Our commitment to innovation, excellence, and customer success has positioned us at the forefront of healthcare revenue cycle management for over two decades.

CEO Paul Valenzuela states, "Genesis is the culmination of years of experience, innovation, and a commitment to solving healthcare providers' challenges. It's the beginning of a new era in medical coding, where automation drives both accuracy and growth."

For two decades, MediMobile has been a trusted leader in the healthcare industry, with clients experiencing long-term success and innovation. The launch of Genesis is the next step in MediMobile's commitment to revolutionizing medical coding and bringing the future of healthcare automation to

providers worldwide.
