New music from Smiz The Moneykid, Villa Dom, MLove & Millionahre shakes up the music scene.

Albany, New York Nov 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - New Music from Smiz The Moneykid "iPhone 13" (The Album), Villa Dom "Raw Dosage" (The Album), MLove "The Vanity Project" & Millionahre "FUPM" (The Album) is guaranteed to shake up the music industry by bringing back the essence of real song

making and originality like it used to be.

In these days and times it seems that the music industry is flooded with songs and artist that all sound alike which makes it harder for fans to know who's who.

Today's artist have lost the ability to be original and authentic because it seems like the record labels are only looking for cookie cutter acts that all sound the same.

What ever happened to the artist & songs that had substance and provided the soundtracks to our everyday lives? Well...with these new releases we aim to restore that nostalgia feeling and hopefully become your new favorite!
