

On-Chain Enterprise AI Platform Atua AI (TUA) Implements Llama's New Model to Boost Capabilities

The integration of Llama's new model enhances Atua AI's on-chain platform, delivering advanced automation and predictive capabilities for enterprises in the Web3 ecosystem.

Singapore, Singapore Oct 28, 2024 ([Issuewire.com](https://www.issuewire.com)) - [Atua AI](#) (TUA) has integrated the latest model from Llama into its on-chain enterprise AI platform, marking a significant leap in its AI-driven capabilities. This development aims to enhance the platform's ability to streamline workflows, automate operations, and provide advanced tools to businesses operating in the decentralized Web3 ecosystem.

The integration of Llama's new model brings more advanced natural language processing capabilities, empowering enterprises with precise content generation, predictive analytics, and real-time data processing. These tools enhance operational efficiency across industries by offering AI-powered insights and seamless automation for business processes.

Atua AI's platform, known for its blockchain interoperability, continues to evolve by adopting cutting-edge AI innovations to meet the needs of businesses and developers. This move aligns with the platform's mission to provide scalable and secure enterprise solutions while staying at the forefront of AI and blockchain technology.

With Llama's new model integrated, Atua AI strengthens its offering of robust, AI-powered tools designed to optimize enterprise operations. As it continues to grow, the platform is well-positioned to drive meaningful adoption and foster innovation within the Web3 space.

About Atua AI

Atua AI is an all-in-one on-chain enterprise AI platform that integrates artificial intelligence with blockchain technology. It provides scalable, secure solutions for businesses, developers, and creators, enabling automation and operational efficiency within the Web3 landscape.
