

Play to get real crypto trader experience

MaximumSoft Corp. announces new release of its popular crypto trade simulator CryptoPlay.

CryptoPlay trade simulator

Dublin, Ohio Dec 2, 2024 ([IssueWire.com](https://www.issuewire.com)) - MaximumSoft Corp. is delighted to announce the new release of its popular crypto trade simulator CryptoPlay, which helps to learn how to buy, sell, and convert cryptocurrencies, all virtually.

The new release adds support for online games, where players and their portfolios can compete with other users.

CryptoPlay provides everything needed to become a successful crypto trader: multiple portfolios, real-time crypto prices, information charts, alarms, etc.

Even Professional crypto traders & investors can use this app to test different trading strategies, monitor their portfolios, and get real alarms when the crypto market is changing.

Users are playing with virtual money, and getting real experience, with no real money spent.

CryptoPlay app simulates the real Crypto market and uses real prices of main cryptocurrencies. It allows to simulate processes of Buying, Selling, and Converting cryptocurrencies. The app provides detailed information about each cryptocurrency and includes references to learning articles. CryptoPlay allows to creation of multiple portfolios (gameplans) and supports multiple color themes.

The app also includes mini-games for players to have fun, relax and learn.

CryptoPlay is available on the [Apple App Store](#) and [Google Play](#).
