

Ravedaddy Launches With A Mission To Keep You Safe, Connected, And In The Moment

Available Now on Apple & Android

12:03

PLAY HARD.
PLAY SAFE.

Chandler, Arizona Oct 22, 2024 ([IssueWire.com](https://www.issuewire.com)) - RaveDaddy, the new personal safety app designed for festival-goers, students, and event attendees, is officially live. [Available now on Google Play and Apple App Stores for \\$3.99/month](#), RaveDaddy ensures users can stay connected and safe without the burden of personal data collection.

With RaveDaddy, your moments are yours alone. The app prioritizes **user privacy** - no tracking, no unnecessary data collection. The only information required is your phone number for account setup, ensuring that you and your friends can focus on **being in the moment** rather than worrying about who's collecting your information.

"We built RaveDaddy because safety should feel simple and seamless, without strings attached," said **Chris King**, co-founder of RaveDaddy. "This app gives you the tools to feel secure - whether you're at a festival, on campus, or meeting friends - without trading your privacy for convenience. We believe in a safer, more connected world where your personal moments stay private."

A Better Way to Stay Connected

At its heart, RaveDaddy offers **connection and peace of mind**. The **Buddy System** helps users stay close to their group, while **SOS alerts** provide a lifeline to friends and event staff during emergencies. By removing the friction of complex setups or extra hardware, RaveDaddy ensures you always have the tools you need to stay safe and connected when it matters most.

Building Stronger Communities Through Local Partnerships

RaveDaddy is already forging **local partnerships** with organizations like the **Downtown Tempe Authority** to integrate the app into retail, hospitality, and event operations. These partnerships aim to make public spaces and events safer by empowering businesses to quickly respond to emergencies and stay in sync with their customers and staff.

Celebrating Community Through the RaveDaddy Podcast

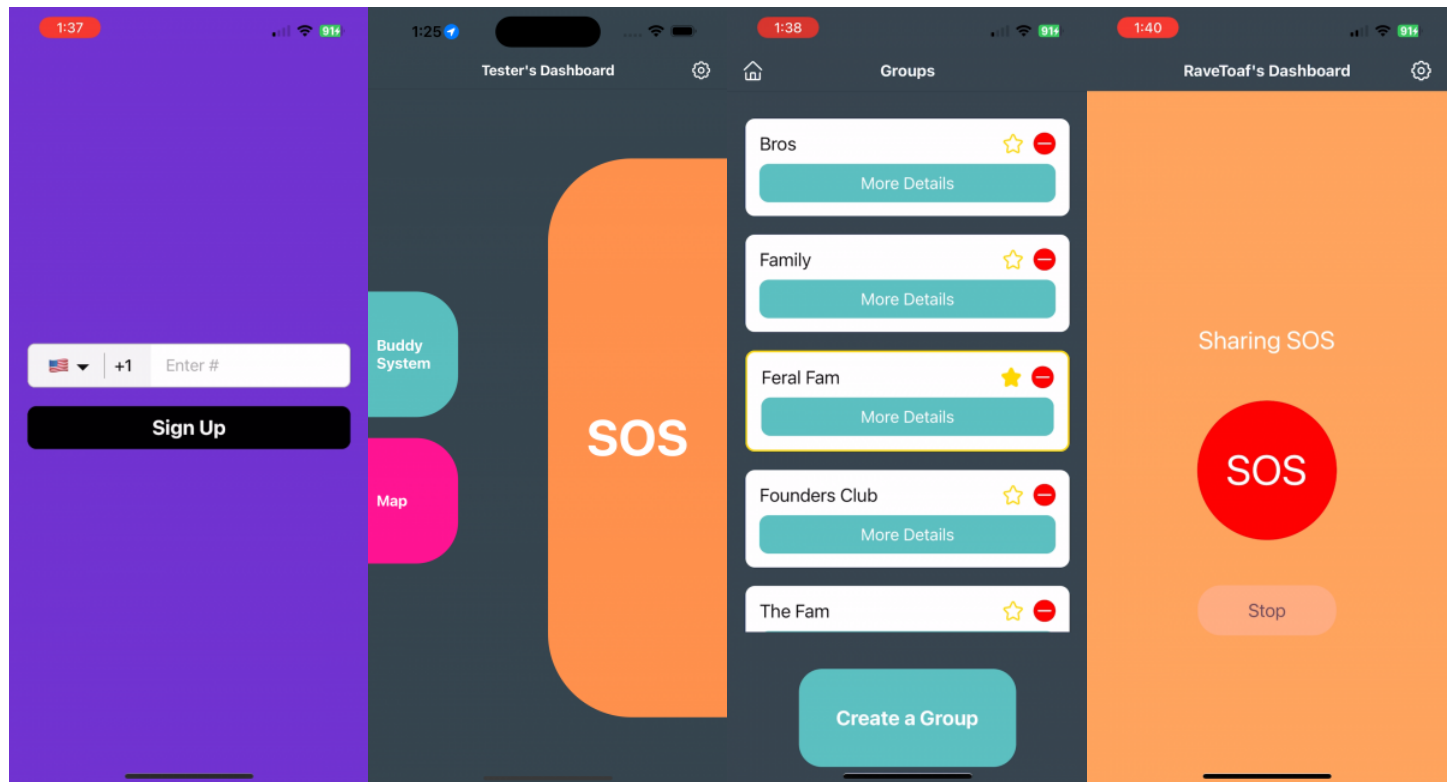

RaveDaddy's community engagement extends beyond the app with the **RDY VIP Podcast**, now three episodes in and available on **Apple Podcasts** and **Spotify**. Featuring interviews with DJs, festival organizers, and community leaders, the podcast fosters connection by spotlighting the experiences and stories that shape festival culture.

Fueling Future Growth and Innovation

To continue growing and delivering on its mission, RaveDaddy is running a **fundraising campaign on WeFunder** with a goal of raising **\$500,000**. These funds will support feature development, new partnerships, and expanded outreach into retail and event sectors.

RaveDaddy is more than just an app - it's a movement toward a safer, more connected world where you're free to explore, connect, and enjoy life without worry.
