

Shawn Naqvi, DO Leads Personic Health with a Vision for Multidisciplinary Wound Care

Virginia Physician Dedicated to Individualized Patient Care and Community Impact

New York City, New York Oct 15, 2024 ([IssueWire.com](https://www.issuewire.com)) - When medical professionals take on an executive role in an organization, you often see them giving up their license, significantly reducing or halting medical practice entirely. But that's not the case with Dr. Shawn Naqvi.

Dr. Naqvi, a board-certified internal medicine physician, proudly serves as the Chief Executive Officer and co-founder of Personic Health currently, but a major part of his day still revolves around seeing patients. Driven by a deep-seated passion for multidisciplinary care, Dr. Naqvi is committed to addressing the unique needs of each patient, ensuring they receive holistic support tailored to their specific circumstances.

Patient relationships are at the heart of Personic's ethos. "Every person is part of the care team here at Personic," he says to everyone involved directly and indirectly in patient care.

"Our team of dedicated medical professionals is committed to making a profound and enduring impact on the lives of each patient we serve. With a wealth of experience and expertise spanning various domains within healthcare, we strive to deliver exceptional care and support to our community".

His approach has influenced several of his patients, which is evident in how he is regarded by them. Case in point, a lady based out of Maryland, who Dr. Naqvi recently treated. For 15 weeks, she would have tea prepared for him before he'd arrive at her house to treat her wounds.

Personic's wound healing rates are also a testimony to this commitment.

About Personic Health:

For years, healthcare has dictated when and where patients receive care. Personal leadership identified that as a problem and believes that patients, regardless of who and where they are, should have access to world-class wound care, in a setting that is best suited and comfortable for the patient. Personic Health evolved as an in-home wound care center, bringing several innovative and advanced clinical and medical wound care procedures in surgical and ultrasound debridement like skin grafts to patients, in their homes.

Personic Health is physician-owned and headquartered in Vienna, Va.
