

## Sloan Dental Sets New Standard as Scotland's First Elite Apex Invisalign® Go Provider

**Glasgow, Scotland Oct 30, 2024 ([IssueWire.com](https://www.issuewire.com))** - Glasgow's family-owned dental practice achieves top 1% status among European Invisalign® Go providers, bringing advanced technology to local patients.

Sloan Dental, a family-owned dental practice founded by Aileen and Niall Sloan in 2009, is thrilled to

announce its recent designation as an **Elite Apex Invisalign® Go Provider**, making it Scotland's first practice to achieve this prestigious status.

Awarded to the top 1% of Invisalign® Go providers across Europe, the Elite Apex title is a testament to Sloan Dental's dedication to clinical excellence and commitment to patient-centred care in Glasgow.

The Elite Apex distinction is granted to a select few dental practices in recognition of exceptional expertise and patient outcomes with Invisalign® Go, an innovative and minimally invasive solution for teeth straightening. With this achievement, Sloan Dental joins an exclusive network of top European providers, elevating the clinic's reputation as one of the leading dental practices for orthodontic care in Scotland.

"We are incredibly honoured to be Scotland's first Elite Apex Invisalign® Go Provider," said Niall Sloan, co-founder of Sloan Dental. "This recognition reflects our team's dedication to delivering transformative dental care with the latest technological advancements. Our patients in Glasgow and beyond deserve the best, and this achievement helps us offer them just that."

### **Advanced Technology with iTero Scanner**

As part of its commitment to bringing state-of-the-art dental care to Glasgow, Sloan Dental also offers the iTero scanner, a leading digital scanning technology that enhances the Invisalign® experience.

One of the few practices in Glasgow with this equipment, Sloan Dental uses the iTero scanner to create precise 3D digital images of the patient's mouth, allowing for a more accurate and comfortable orthodontic planning process.

This cutting-edge technology enables patients to visualise their treatment results and experience more comfortable, efficient care.

### **Family-Oriented Dentistry with a Personal Touch**

Since its founding in 2009, Sloan Dental has remained true to its roots as a family practice, serving the Glasgow community with comprehensive and compassionate dental care. With a focus on quality, personalised treatment plans, and long-lasting patient relationships, Aileen and Niall Sloan have cultivated a practice where patients of all ages feel welcome and supported.

Sloan Dental offers a full range of dental services beyond Invisalign® treatments, including preventive care, restorative dentistry, and cosmetic treatments, all delivered with a focus on patient comfort and excellence in service.

### **About Sloan Dental**

Sloan Dental, founded in 2009 by Aileen and Niall Sloan, is a family-centered dental practice based in Glasgow. As Scotland's first Elite Apex Invisalign® Go Provider, Sloan Dental stands among Europe's top 1% of Invisalign® Go practices.

With advanced technology and a commitment to patient-first care, Sloan Dental provides a comprehensive range of dental treatments, offering innovative and compassionate dental solutions for families in Glasgow and surrounding areas.
