

SmartHMS & Solutions Private Limited Celebrates Growth and International Expansion with Naseem Healthcare Partnership

Trusted Indian Healthcare Software Now Live in Qatar

Thiruvananthapuram, Kerala Oct 5, 2024 ([IssueWire.com](https://www.issuewire.com)) - SmartHMS & Solutions Private Limited, a leading provider of hospital management software, is proud to announce its continued growth and expansion into international markets. As of the first week of October 2024, SmartHMS will officially go live with its flagship SMARTHMIS software at **Naseem Healthcare**, the largest healthcare network in Qatar. This partnership marks a significant milestone for the company, demonstrating its rapid expansion and increasing trust in Indian-made healthcare technology across borders.

A Journey of Innovation and Client Satisfaction

Since its inception, SmartHMS & Solutions Private Limited has been dedicated to providing cutting-edge [healthcare management solutions](#) to hospitals and healthcare institutions across India. Over the past few years, the company has steadily built a portfolio of prestigious clients, each satisfied with the seamless integration, flexibility, and robust features of SMARTHMIS.

IQRAA International Hospital & Research Centre, one of Kerala's most respected medical institutions, was among the first to adopt SMARTHMIS in 2018. The software has since helped the hospital streamline its operations, enhance patient care, and optimize billing, making IQRAA a loyal client and advocate for SmartHMS.

In 2019, **Mar Sleeva Medicity Palai**, a 750-bed tertiary care hospital, also embraced SMART HMIS.

With 44 specialized medical disciplines and hundreds of staff members, Mar Sleevea needed a robust, scalable solution. SmartHMS was able to deliver, and their software continues to play a key role in managing the hospital's daily operations.

In 2023, **Sabine Hospital & Research Centre**, a 200-bed facility offering a variety of healthcare programs, joined the growing list of SmartHMS clients. SMART HMIS has been instrumental in automating administrative tasks, improving patient record accuracy, and ensuring efficient billing processes.

Most recently, in 2024, **SP Medifort Hospital**, another major hospital in India, adopted the SMART HMIS software. This hospital management system has made a significant impact on the hospital's operational efficiency, allowing the medical staff to focus more on patient care and less on administrative burdens.

A Major Milestone: Naseem Healthcare, Qatar

In a proud moment for India and its healthcare technology sector, SmartHMS is thrilled to announce its first major international partnership with **Naseem Healthcare**, Qatar's largest healthcare network. With numerous branches, specialized healthcare services, and a reputation for delivering high-quality medical care, Naseem Healthcare is a highly respected institution across the Gulf Cooperation Council (GCC) region.

This partnership solidifies [SmartHMS](#)'s position as a trusted hospital management software provider, not just in India but on an international scale. SMART HMIS will officially go live at Naseem Healthcare in the first week of October 2024, offering enhanced hospital management features such as electronic health records (EHR), patient information management, billing automation, and real-time data analytics. The deployment of SMART HMIS at Naseem will allow the healthcare network to optimize its processes, reduce operational overhead, and improve the overall patient experience.

SmartHMS's ability to meet the complex needs of such a large and diverse healthcare organization is a testament to the versatility and scalability of the SMARTHMIS platform. The software's success with other clients in India has earned SmartHMS a reputation for delivering practical, reliable, and cutting-edge solutions.

A Growing Legacy of Trust

The success of SmartHMS lies in its unwavering commitment to client satisfaction and its continuous innovation to meet the evolving needs of the healthcare industry. Over the years, the company has built long-standing relationships with its clients by providing personalized customer support and regular software updates that address emerging trends in healthcare technology.

Clients like IQRAA International Hospital, Mar Sleevea Medicity Palai, Sabine Hospital, and SP Medifort Hospital have expressed immense satisfaction with the benefits they've gained from the SMART HMIS platform. From improved patient care to streamlined administrative processes, the software has proven to be an invaluable asset to healthcare institutions striving for excellence.

Dr P C Anver, Executive Director of IQRAA Hospital, commented, "Since implementing [SMART HMIS](#) in 2018, our hospital's operations have become significantly more efficient. The software's ability to adapt to our unique needs has made a substantial difference in the way we manage patient care, records, and billing."

Similarly, Dr. Sabine Sivadasan, Chairman and MD of Sabine Hospital, said, “The integration of SMART HMIS has been nothing short of transformative for our hospital. Its flexibility, combined with robust features, has enabled us to provide even better care to our patients.”

Moving Forward with Confidence

As SmartHMS moves forward, the company is poised for further expansion into international markets, building on the success of its deployment at Naseem Healthcare. The partnership with Qatar's largest healthcare network is expected to open doors to new opportunities across the GCC and other regions, solidifying the company's reputation as a trusted leader in healthcare technology.

With the upcoming launch at Naseem Healthcare, SmartHMS is proud to showcase the excellence of Indian-made software on a global platform. The company's growth journey is a testament to the quality of its products, the dedication of its team, and the trust placed in it by clients both in India and abroad.
