

## Tomedes Adds Claude AI to MachineTranslation.com, Expanding Translation Capabilities

Businesses and professionals now have greater flexibility and precision with a broader range of AI-powered translation tools.

**Beaverton, Oregon Oct 3, 2024** ([Issuewire.com](https://www.issuewire.com)) - [Tomedes](https://www.tomedes.com), a leading US language service provider specializing in translation, interpretation, and localization services, is proud to announce the integration of Claude AI into its AI product, [MachineTranslation.com](https://www.machinetranslation.com). This addition enhances the platform's ability to provide fast, accurate, and cost-efficient translations in over 240 languages.

This development reflects Tomedes' ongoing commitment to providing users with cutting-edge tools that make translation easier, more accurate, and more accessible.

"MachineTranslation.com doesn't just evolve with the market; it aims to help shape the future of language services," says Ofer Tirosh, CEO of Tomedes. "While others are focusing on gradual improvements, we're leading the industry by integrating advanced AI like Claude, ensuring that MachineTranslation.com is not only the go-to platform today but will continue to be a leader in the future of translation services."

With each new language model added to the platform, MachineTranslation.com's capabilities become more powerful. Claude AI's unique capabilities enhance the platform's ability to tackle complex translation tasks, where deep contextual understanding is critical.

"The value of adding more large language models (LLMs) like Claude isn't just incremental—it's exponential," Tirosh added. "Claude AI has shown impressive performance in areas where other LLMs may struggle, offering a stronger solution for many language needs."

## **Key Features**

With Claude AI, known for its advanced language generation and deep contextual understanding, users gain a new tool that delivers flexible, creative, and precise translations. As the most advanced translation aggregator available today, MachineTranslation.com now offers an even more comprehensive selection of translation engines, making it easier for users to select the best model for specific language pairs or content types, ensuring the highest translation quality for their needs.

Tirosh notes, "We're not just expanding the platform's capabilities; we're enriching the choices available to our users. Each engine brings something unique, and Claude AI offers new possibilities for translating complex documents, localizing interfaces, or crafting creative multilingual content."

## **Enhanced Efficiency for Users**

MachineTranslation.com's updated lineup of AI engines reduces the need for manual translations, streamlining workflows for businesses and professionals. Claude AI's advanced capabilities mean users can expect smarter, more tailored translations in real time, making it easier to tackle global communication challenges.

## **Who It's For**

This expanded toolset is designed for small and medium businesses that require fast, reliable, and cost-efficient translation solutions. Whether you need fast translations or deep contextual accuracy, MachineTranslation.com provides the tools to meet diverse needs.

## **Tailored for Global Business Growth**

MachineTranslation.com remains a go-to resource for small and medium-sized businesses, startups, and individuals seeking multilingual communication solutions. With the inclusion of Claude AI, the platform sets a new standard for translation accuracy and flexibility, making it easier to navigate language barriers and expand globally.

"Our goal is to give businesses easy access to tools they need to grow in a multilingual world, and Claude AI adds a significant layer of capability to that vision," adds William Mamane, Chief Marketing Officer at Tomedes.

## **Available Now**

Claude AI is now live on MachineTranslation.com. Users can seamlessly integrate Claude AI's unique features with their existing workflow, offering unmatched customization and efficiency in translation.
