

Zhejiang Environmental Protection Services Makes Inroads in Dubai

Advancing Green Development of the Belt and Road Initiative

Dubai, United Arab Emirates Oct 16, 2024 ([Issuewire.com](https://www.issuewire.com)) - The 2024 Zhejiang Service Trade Exhibition (Dubai) hosted by the Zhejiang Provincial Department of Commerce, successfully took place from October 1 to 3 at the Dubai World Trade Center.

China is currently undertaking a swift transformation of its vast economy towards a more environmentally friendly model. The country is promoting the green development of the Belt and Road Initiative, embracing sustainable practices, actively addressing global climate change, and safeguarding global ecological health. As a result, green and environmentally friendly trade has become a fundamental element in the joint construction of the Belt and Road Initiative.

Zhejiang Province boasts a thriving array of environmental protection enterprises, underpinned by a robust foundation in the environmental industry, which attracts advanced technology and high-end talent. Green trade is flourishing, with export values rising annually, and the number of exporting enterprises surpassing 10,000, especially in the comprehensive environmental protection service

sector.

A total of nine environmental protection service companies from Zhejiang participated in the exhibition, showcasing a diverse range of products and services. These included comprehensive environmental management solutions, fluid purification and separation technologies, wastewater recycling systems, intelligent sealing detection systems, smart water management solutions, and innovative environmental protection services.

The Zhejiang exhibition area also featured several presentations and exchange sessions, drawing a considerable number of visitors and fostering a lively environment for communication. This reflects the continued deepening of international exchanges and cooperation. Zhejiang's environmental protection service enterprises have vowed to enhance the import and export of environmental protection products and services, thereby supporting the green development of the Belt and Road Initiative.
