

Caron Ara from the UK claims to have encountered a fleet of alien craft

Downton, Wiltshire Nov 9, 2024 ([Issuewire.com](http://www.Issuewire.com)) - A fleet of alien craft has been seen in rural Wiltshire, UK, which is quite astonishing. As per the claim of Caron Ara, the witness of the incident has confirmed that more than eighteen non metallic crafts were seen near Wiltshire. She also stated that she saw one metallic-designed craft It seemed like an observation was going on through this whole process.a few of the craft were playful hid behind trees observing her. was able to get closer get some footage. This kind of incident has not only taken place once but several more times in and around the same location.

Caron said she witnessed this incident while riding an electric bike in Wiltshire. And then she saw the alien craft tilt on their side it uses an amber energy that powers their craft it surrounds it when they tilt on their side which they frequently do close to our earth. to see them as a solid craft would usually be much higher up in the sky. the technology was magical appears to defy our known laws of physics . going invisible changing shape and form some of the things she saw..

. She has seen the crafts near Wiltshire for hours. one time watching fireworks on nov 5th guy fawkes n uk she has v f x expert tested footage and stills of these encounters.. they overall are evasive it can be very hard to get proof of encountering them. caron was out in dark conditions awkward angles shake in hands but got some footage these other worldly beings.. she felt are peaceful spiritually evolved beings estimate about three feet plus light weight. the incredible moves. tilts speeds they make no human could with stand this. Been travelling around the vast universe and our earth for a very long time. To reach out to the maximum number of people with this news, Caron has also shared VFX photos and videos of the incident on [X](#). Check them out for more references.
