

Global Film Production announces new streaming platform.

Global Film Production announces new programs for developing scripts for new platform.

Las Vegas, Nevada Nov 18, 2024 ([Issuewire.com](https://www.issuewire.com)) - **Global Film Production (GFPS) Unveils Groundbreaking Content Discovery Method Ahead of Streaming Store Launch**

Global Film Production (GFPS), a trailblazer in the film industry with offices in Hollywood, Las Vegas, and Dubai, is thrilled to announce its innovative approach to content discovery and development. This initiative comes as GFPS prepares for the launch of its online streaming store, featuring first-run films and documentaries in August 2025.

In response to the growing demand for support in the creative process, GFPS has developed a revolutionary system aimed at empowering both established and aspiring writers. The company provides a copyright service to safeguard writers' creations once their projects are complete.

This unique model pairs experienced writers with emerging talent, offering mentorship to help refine and complete scripts. The goal is to enhance aspiring writers' chances of success in the highly competitive film industry. In addition, GFPS has introduced a dedicated program for novice writers with promising ideas, ensuring they receive the collaborative support needed to craft marketable scripts. This nurturing approach has already yielded impressive outcomes, with seven scripts sold and three projects currently in pre-production.

GFPS is positioning itself as a comprehensive resource for writers, directors, and producers, backed by a committed group of investors. The initiative is led by multi-billionaire developer Terrance A. Day of Dubai and renowned American businessman RG Morgan, both of whom are dedicated to advancing GFPS's mission of producing 100 high-quality films and documentaries for the upcoming streaming store launch.

"At GFPS, we believe in the transformative power of collaboration and mentorship to cultivate creative talent," said a company spokesperson. "Our new methods ensure that seasoned writers and emerging creators alike have the resources and support necessary to thrive."

As GFPS approaches its highly anticipated launch, the company aims not only to revolutionize content distribution but also to redefine the story development landscape within the film industry.
