- Choose the medical service you need and share details about your current health condition.
- Upload your medical records and complete the payment.

02

Receive Your Second Opinion

- A specialist will review your case for a second opinion.
- Usually, you can download your report from your account within 48 hours.

03

Sugar Land, Texas Nov 14, 2024 ([IssueWire.com](https://www.issuewire.com)) - Global Health Opinion, a trailblazer in healthcare technology, is opening a pre-seed investment round to raise up to \$10 million. The funding will scale its groundbreaking second-opinion platform, globalhealthopinion.com, and its next-generation patient journey management system integrated with healthcare insurance solutions. Supported by Microsoft Founders Hub and NVIDIA Inception, the company is transforming how patients access and navigate care worldwide.

At the heart of Global Health Opinion's mission is globalhealthopinion.com, a platform offering unbiased second opinions from a network of 25,000+ practicing partner doctors across the globe. This service empowers patients with expert insights, ensuring informed decisions for less painful, more effective treatment options anywhere in the world.

Building on this foundation, the prx.care platform integrates patient journey management with innovative health insurance features, including telehealth, queue management, specialist consultations, international treatment coverage, and cashless hospitalization. This approach simplifies healthcare, ensuring accessibility, affordability, and streamlined experiences for patients.

"Our vision is to create a seamless healthcare ecosystem where patients have access to global expertise and personalized, pain-free treatment options," said Sano Jacob Marattil, Co-founder and COO of Global Health Opinion. "With support from Microsoft Founders Hub and NVIDIA Inception, we are driving the future of patient-centered healthcare globally."

The funds raised will accelerate the platform's expansion across the U.S., U.K., and Middle East and enhance its digital infrastructure to support growing demand. Investors are invited to join this transformative journey to redefine global healthcare.

About Global Health Opinion
