

HandyPro A Leader in Enhancing Home Environments to Support Aging in Place

HandyPro, a leader in home repair and renovation services, is committed to improving home environments so individuals can remain in their homes as long as it is safe to do so.

Washington, D.C, District of Columbia Nov 23, 2024 ([Issuewire.com](https://www.issuewire.com)) - HandyPro, a leader in home repair and renovation services, is committed to improving home environments so individuals can remain in their homes as long as it is safe to do so.

Recognizing the changing needs of older adults and individuals with disabilities, HandyPro's goal is to create accessible, functional, and safe living spaces that enhance the quality of life and support independence.

"Our goal is to help people stay in their homes as long as it is safe," said Melissa Bressler, Licensed/Registered Occupational Therapist at HandyPro.

"We understand that as people age or face mobility challenges, their homes must adapt. That's why we've developed a range of services focused on making homes safer, preventing falls, and improving accessibility, allowing our clients to maintain their independence and quality of life."

HandyPro's aging-in-place modifications include the installation of grab bars, wheelchair ramps, stairlifts, walk-in tubs, widened doorways, and other safety features designed to prevent accidents and falls.

According to the CDC, one in four Americans aged 65 and older falls each year, making fall prevention a critical part of aging in place.

Each modification is tailored to the specific needs of the client, ensuring that the solutions provided are both functional and aesthetically pleasing.

In addition to physical modifications, HandyPro also offers consultation services to help families plan for future needs, ensuring that their homes will continue to serve them well as they age.

The company's team of experts, including licensed occupational therapist Melissa Bressler and engineer Ali Soltani, works closely with clients to develop customized plans that address current and anticipated challenges, making the home a safe and comfortable environment for years to come.

"We are not just modifying homes; we're helping clients maintain their independence, dignity, and peace of mind," added Ali Soltani, MBA, CEAC, an engineer and key member of HandyPro's management team.

"Our solutions are thoughtfully designed to blend functionality with aesthetics, ensuring that our clients can enjoy both safety and comfort without sacrificing the beauty of their living spaces."

About HandyPro

HandyPro is a nationally recognized provider of handyman services, specializing in home modifications, repairs, and renovations. With a commitment to quality and customer satisfaction, HandyPro serves communities across the United States, helping individuals maintain their homes and their independence.

Their customers say it best:

I had an outstanding experience working with HandyPro for the installation of grab bars in 2 bathrooms. First and foremost, they were able to accommodate my schedule to do the work before my joint replacement surgery. Hunter is a highly skilled professional whose experience enabled him to deal with a tricky situation of steel studs. He is also very knowledgeable about placement of the grab bars to meet my specific needs. I highly recommend Ali Soltani and all the staff at this HandyPro for their expertise.- Susan Kimmel

After a serious illness in the family, we needed to make multiple changes to our home to accommodate our new requirements. Ali Soltani and HandyPro were recommended to us, and we are thrilled with the results. They did a major reconstruction of our bathroom, including relocating plumbing, installing a walk-in shower with multiple grab bars, as well as putting in a stair lift in our two-story house. We were impressed with Ali's, Leo's and the crew's professionalism, patience, flexibility, and guidance. They arrived on schedule, worked throughout the day, and cleaned up at the end of the day. When we had questions, Ali was quick to respond. HandyPro more than met our expectations and we highly recommend them. - Amy Aronoff

The company's core mission is to ensure that homes remain safe, comfortable, and accessible for all, enabling their clients to age in place gracefully.
