

## Hope AMC Showcased the Best Child Physiotherapy (CP) Techniques at the AccessAbilities Expo in Dubai

Hope AMC participated in the AccessAbilities Expo in Dubai and highlighted some of the best Child Physiotherapy (CP) techniques with kids, parents and families.

**Dubai, United Arab Emirates Nov 14, 2024 ([Issuewire.com](https://www.issuewire.com))** - Hope AMC recently participated in the 6th edition of the **AccessAbilities Expo**, held from October 7 to 9, 2024, at the Dubai World Trade Centre. This expo, the largest event in the Middle East dedicated to people with disabilities, brought together communities, government bodies, and top disability experts and **pediatric physiotherapists in Dubai** to share knowledge and showcase solutions.

At the event, Hope AMC emphasized its dedication to providing superior [pediatric physiotherapy treatments for children](#). Families got the opportunity to explore several techniques to assist children with diverse physical requirements. The pediatric physiotherapists of Hope AMC interacted with parents, providing tailored guidance and demonstrating their unique strategies.

“Our goal at Hope AMC is to help children achieve their full potential through tailored physiotherapy programs,” said the Managing Director of Hope AMC, Amal Tolba, “We know that each child is different, and we work closely with families to make sure that their kids have the best outcomes.”

The specialized team at Hope AMC, including highly skilled pediatric physiotherapists with extensive training in methodologies such as Neurodevelopmental Treatment (NDT), Suit Therapy, Hydrotherapy, and others, attended the **AccessAbilities Expo**. These professionals were committed to assisting youngsters in overcoming physical developmental impairments, including challenges with sitting, rolling over, or walking.

During the **AccessAbilities Expo**, visitors learned about various **child physiotherapy (CP)** programs Hope AMC offers. These programs focus on improving strength, coordination, flexibility, and balance. Some of the common conditions they address include Cerebral Palsy, Muscular Dystrophy, Down Syndrome, Gait Difficulties, and Neurological Problems.

The team of Hope AMC used fun and engaging activities to make therapy enjoyable for children. For example, their mobility exercises incorporated games and movement to motivate kids. This approach helped children improve their mobility while having fun. Experts of this renowned pediatric physiotherapy clinic in Dubai also discussed specialized programs like the Cuevas Medek Exercises (CME) with parents and families, which proved ideal for children with flexibility and coordination issues.

As a **leading pediatric physiotherapy clinic in Dubai**, Hope AMC is dedicated to supporting children with physical developmental delays and disabilities. With a focus on collaboration with families, **pediatric physiotherapists of Hope AMC** aim to provide the best care for every child.
