

Introducing Avatalk: Revolutionize Networking with Your AI-Powered Digital Twin

Avatalk launches in London, offering a revolutionary AI-powered digital business card that replaces traditional cards with an engaging, 24/7 AI twin. It boosts networking with customizable AI interactions, accessible across industries.

London, United Kingdom Nov 6, 2024 ([IssueWire.com](https://www.issuewire.com)) - Always On, Always Networking: Avatalk Enables Effortless Professional Connections Anytime, Anywhere

Today marks the official launch of Avatalk, a groundbreaking AI-powered digital business card platform that transforms traditional networking. Avatalk introduces the “AI Twin,” an intelligent digital persona that engages, connects, and follows up on behalf of its users, ensuring they never miss an opportunity to make impactful connections. As networking evolves beyond business card exchanges, Avatalk is poised to redefine professional relationship-building in an increasingly globalized world.

Avatalk addresses the limitations of outdated business cards, offering a 24/7 digital assistant that connects professionals seamlessly without the constraints of time zones, language barriers, or personal availability. Designed for ease and scalability, Avatalk’s digital twin can interact, share multimedia content, and maintain continuous engagement, allowing professionals to focus on core tasks while Avatalk manages the connections.

How Avatalk Works

Avatalk creates a dynamic, AI profile from the user’s professional background, which then acts as their digital representative. The AI Twin exchanges contact details, schedules meetings, and even interacts on behalf of users with personalized responses. By leveraging Avatalk’s multilingual capabilities and NFC-enabled instant sharing, users can establish a global professional presence effortlessly.

Key Features of Avatalk Include:

- **24/7 Networking:** The AI Twin is always ready to make connections, even when users are offline.
- **Customizable AI Avatar:** Users can personalize their digital persona to reflect their unique professional brand.
- **Comprehensive Analytics:** Avatalk provides insights into networking performance, offering users data-driven metrics to refine their approach.
- **Multilingual Communication:** The AI Twin’s language support broadens opportunities to connect with professionals worldwide.

Quote from Mona Azami, CEO of Avatalk

“At Avatalk, we believe that networking should be as dynamic and limitless as the modern professional. Our AI Twin is designed to redefine the traditional business card, making it an active, intelligent assistant that not only shares information but also engages meaningfully on behalf of our users. We are excited to see Avatalk empower professionals to maintain a constant, impactful presence in the industry.”

About Avatalk

Founded in London, UK, Avatalk is an innovative solution in the digital networking space, designed to elevate traditional business interactions with intelligent, AI engagement. With a rapidly growing market for AI-powered digital solutions, Avatalk aims to lead the industry by creating lasting, meaningful connections that span across geographical and linguistic boundaries. Built on the mission to modernize networking, Avatalk offers a subscription-based model with flexible options, from free access where users can access all the other competitors premium features for free to paid features at £6.5 per month, providing customization, unlimited AI usage, and advanced analytics.
