

Meet the New Make-in-India Powered By TikTik AI Aether X Smartwatch Shaping the Future of Technology

Introducing the Aether X by TikTik Global LLP—a groundbreaking Made-in-India smartwatch powered by TikTik AI and InfinityOS, prioritizing health insights, data privacy, and seamless usability for a new era of wearable technology.

Delhi, India Nov 8, 2024 ([Issuewire.com](https://www.issuewire.com)) - The *Aether X Powered By TikTik* smartwatch is a highly anticipated, proudly *make-in-India* innovation from *TikTik Global LLP*, blending refined aesthetics with robust health and fitness features. With pre-booking set to open in December, this smartwatch showcases cutting-edge advancements with *TikTik AI* and its proprietary *InfinityOS*, designed for privacy and performance. Here's an in-depth look at why the Aether X is poised to set a new standard for wearable technology.

Aether X: Redefining Smartwatches with a Focus on Privacy and Precision

The *Aether X Powered By TikTik* was built to empower users with comprehensive wellness tracking and premium design elements, all while ensuring data safety. With the proprietary *InfinityOS*, this *make-in-India* smartwatch Operating System supports smooth operation while keeping sensitive data secure and isolated from third-party apps, giving users full control over their information.

Aesthetic Features: Merging Elegance and Usability

- **Durable Metal Body:** The Aether X is crafted with a sturdy metal body, delivering both durability and a premium feel. Its sleek, minimalist design reflects the innovation and quality associated with *made-in-India* engineering, making it suitable for any occasion.
- **Coloured Rotating Crown:** The colour crown allows for smooth, efficient navigation across the smartwatch's interface, eliminating the need for constant touchscreen use. This innovative

design not only adds style but also improves usability, making navigation a seamless experience.

- **Customizable Watch Faces:** Aether X offers a variety of watch faces that cater to both professional and personal aesthetics. The options allow users to easily personalise their device, highlighting the versatile, *made-in-India Design*.
- **Interchangeable Bands:** With a range of high-quality band materials, including leather, silicone, paracord, the Aether X adapts to diverse needs and styles. Users can quickly switch between bands to suit any environment, whether at work, the gym, or a social event.

Sensory Features: Comprehensive Health Monitoring and Data Safety

Equipped with advanced health sensors, the Aether X provides real-time health data while ensuring user privacy. This smartwatch delivers fitness insights without sacrificing data security, making it ideal for those who value privacy in their wearable tech.

1. Key Health Metrics:

- **Heart Rate Monitoring:** Real-time heart rate tracking ensures users are informed about their cardiovascular health.
- **SpO2 Monitoring:** Blood oxygen level tracking provides essential data, helping users manage fitness and respiratory health.
- **VO2 Max Measurement:** VO2 Max tracking helps users optimize their workouts and better understand their aerobic fitness levels, ideal for those with active lifestyles.
- **Met Score Tracking:** The Met Score feature assesses metabolic activity to provide a comprehensive overview of calorie expenditure, supporting users in tracking their energy balance and maintaining an active lifestyle.

2. Sleep and Stress Analysis

- **Sleep Tracking:** This feature monitors sleep duration and quality, helping users improve sleep patterns by analyzing various stages, including REM, deep, and light sleep.
- **Stress Monitoring:** Aether X provides real-time stress insights to help users manage stress proactively, supporting mental well-being and encouraging relaxation.

3. Activity Monitoring and Sports Modes:

- **Health Tricycle:** Designed for fitness enthusiasts, the Aether X tracks steps taken, calories burned, and activity duration.
- **120 Sports Mode:** With multiple sports modes, such as running, cycling, and hiking, users can track the most relevant metrics for each activity type, supporting varied fitness routines.

4. TikTik AI & Water Resistance:

- **Running at an optimised frequency,** *TikTik AI* enables more precise data analysis and real-time notifications based on user activity. This enhanced AI engine powers insights that adapt to individual needs, improving both health tracking and the overall user experience.
- **With a 5 ATM rating,** Aether X can withstand water pressures up to 50 metres deep. This makes it an ideal choice for swimmers and anyone who wants their fitness wearable to endure the rigours of both water and intense workouts.

5. GPS Enabled & Reminder Modules:

- Aether X's built-in GPS lets users accurately track outdoor activities like running, cycling, and hiking without needing a smartphone. It provides precise route and distance data, making it ideal for fitness enthusiasts who want detailed insights into their performance.
- The Reminder Modules help users stay on top of daily routines with custom alerts for hydration, movement, medication, and more. This feature supports health and wellness goals by sending timely reminders directly to the watch.

InfinityOS: Prioritising Data Privacy and Seamless Performance

Aether X operates on *InfinityOS*, a proprietary operating system by *TikTik Global LLP*. Built with security in mind, *InfinityOS* is designed to ensure user data remains private and secure. Unlike other operating systems that support extensive app integrations, *InfinityOS* avoids third-party app compatibility to safeguard sensitive health information and enhance data privacy.

- **Enhanced Security:** *InfinityOS* is structured to keep data isolated, ensuring information such as heart rate, SpO2, and activity levels stays within the Aether X ecosystem. This design prioritises user privacy, preventing unauthorised access and ensuring a secure, *made-in-India* experience.
- **Efficient Interface:** The *InfinityOS* interface is streamlined and user-friendly, allowing users to navigate essential features with ease. With a focus on core functionalities, *InfinityOS* is designed to deliver a smooth, efficient experience without the need for constant app switching.
- **Personalised Settings:** *InfinityOS* supports customizable notifications, health alerts, and display preferences, letting users tailor the device to fit their lifestyle while maintaining a private, data-secure environment.

Conclusion: The Next Step in Made-in-India Wearables

The *Aether X Powered By TikTik* sets a new standard for smartwatches, designed with the perfect blend of aesthetics, functionality, and privacy. With *InfinityOS*, users can enjoy a secure, customizable experience, underscoring the strength of *made-in-India* technology in today's wearable market.

TikTik Global LLP has crafted the Aether X to cater to individuals seeking a stylish, functional, and secure smartwatch experience. For those looking to own a wearable that keeps data private while providing high-quality health and fitness tracking, the Aether X offers a premier *made-in-India* solution.
