

SafER Medical Products to Showcase Portable Respiratory Isolation Systems at AARC Congress in Orlando FL

These Systems Improve Patient Care, Boost Revenues and Lower Costs

Branson, Missouri Nov 12, 2024 ([Issuewire.com](https://www.issuewire.com)) - SafER Medical Products, LLC will showcase their innovative new Respiratory Shield and Endoshield portable respiratory isolation systems at the AARC Congress in Orlando, FL. November 20 – 23.

The SafER portable systems are easy to use, lightweight, and small enough to easily fit into any workspace. The revolutionary SafER system is 99.99% effective in preventing the spread of respiratory illness. Reinvent your current healthcare system protocols with SafER Medical's portable systems while protecting healthcare workers by isolating respiratory illnesses, keeping other patients safe, and allowing more patients to be safely treated.

Visit SafER Medical at the AARC Congress November 20-23 at Booth #308

About SafER Medical Products: SafER Medical is made up of medical professionals who have served on the front lines of the medical community as emergency room doctors and first responders.

About AARC Congress: The AARC International Congress is the premier networking and educational event specifically designed for respiratory therapists from across the country and around the world.
