

# SalesBox AI Launches Revolutionary ABM Platform to Drive Targeted Growth and Engagement

**New York City, New York Jan 10, 2026** ([IssueWire.com](https://www.IssueWire.com)) - [SalesBox AI](#), a leading provider of AI-driven sales and marketing automation solutions, today announced the launch of its cutting-edge ABM (Account-Based Marketing) platform, designed to help businesses accelerate growth by targeting and engaging high-value accounts with precision.

SalesBox AI [ABM platform](#) empowers marketing and sales teams to create highly personalized campaigns for key accounts, leveraging artificial intelligence to analyze customer behavior, identify the best-fit targets, and optimize outreach strategies. With features like automated account segmentation, real-time analytics, and personalized content delivery, businesses can significantly increase their chances of closing deals with high-value clients.

“We’re excited to introduce this innovative ABM platform, which will revolutionize the way companies approach account-based marketing. By harnessing the power of AI, we are enabling sales and marketing teams to engage with the right accounts, at the right time, with the right message. This leads to increased revenue, stronger relationships, and more efficient use of resources.”

The SalesBox AI ABM platform also offers seamless integration with existing CRM systems and marketing tools, making it easier for teams to adopt and scale their ABM efforts. It empowers businesses to track and measure campaign success, ensuring continuous improvement and higher ROI.

As the market continues to evolve, SalesBox AI remains committed to providing innovative solutions that drive results and support businesses in achieving long-term success.
