

TMEC Services Expands Full Electrical & Solar Solutions on Sunshine Coast

Sunshine Coast, Queensland Nov 20, 2024 ([Issuewire.com](https://www.issuewire.com)) - TMEC Services, a trusted provider of electrical, solar, and air conditioning solutions since 2014, is pleased to announce the expansion of its comprehensive services to better serve residential, commercial, and industrial clients throughout the Sunshine Coast. With over a decade of industry expertise, TMEC Services is committed to delivering safe, energy-efficient, and customised solutions tailored to meet the unique needs of each customer.

Expanded Service Offerings

TMEC Services now provides an extensive range of services, including:

- **Electrical Services:** From routine home repairs to large-scale industrial installations, TMEC's certified electricians offer precise and reliable solutions. Services encompass expert wiring, switchboard upgrades, safety switch installations, and customised lighting solutions, ensuring safety and efficiency for every project.
- **Solar & Battery Solutions:** Specialising in designing and installing customised solar installations and battery storage systems, TMEC empowers clients to lower energy bills and minimise environmental impact. These solutions are tailored for residential, commercial, and industrial properties.
- **EV Charging Stations:** Preparing for the future of transport, TMEC installs and maintains electric vehicle (EV) charging stations for homes, commercial properties, and public spaces, ensuring EVs are always ready to go.
- **Air Conditioning Services:** Offering installation, maintenance, and repairs for all types of HVAC systems, TMEC ensures year-round comfort. Services are tailored to meet the specific needs of residential, commercial, and industrial spaces.

Commitment to Excellence

Safety and compliance are top priorities for TMEC Services. The company adheres to all industry regulations and standards, ensuring each project is completed safely and legally. With over 10 years in the industry, TMEC's team brings unmatched expertise to every project, from small residential jobs to large-scale industrial installations. The company offers innovative solutions that are both environmentally friendly and cost-effective, helping clients save money while reducing their environmental impact. Reliability is a cornerstone of TMEC's service, with a commitment to delivering on time, within budget, and with exceptional quality.

Client Testimonials

Clients have consistently praised TMEC Services for professionalism and quality workmanship. One satisfied customer noted, "We have had a number of jobs done by Tom, the most recent being a kitchen renovation. We would highly recommend Tom for anything electrical." Another client shared, "If you have any upcoming projects be sure to give TMEC a call." [TMEC Services](#)

About TMEC Services

Founded in 2014, TMEC Services has grown from a small local business into a trusted provider of electrical, solar panel installation, and air conditioning solutions across the Sunshine Coast, Queensland. With over 10 years of experience, the company has built a reputation for excellence, delivering high-quality, reliable services tailored to the unique needs of residential, commercial, and industrial clients.
