Zeelool, a leading online glasses retailer, has come up with a solution for the wears with oblong faces - the perfect shape of glasses.

Alamo, Texas Nov 27, 2024 ([Issuewire.com](https://www.issuewire.com)) - Finding the perfect pair of glasses can be a daunting task, especially if you have an oblong face. With so many shapes and styles to choose from, it can be overwhelming to determine which one will flatter your face shape the most. That's why Zeelool, a leading online eyewear retailer, has come up with a solution for those with oblong faces - the perfect shape of glasses.

But first, how do you know if you have an oblong face? An oblong face is longer than it is wide, with a narrow forehead and jawline. This face shape is often mistaken for oval, but the key difference is that an oblong face has more length and less width. If you're still unsure, Zeelool has a face shape guide on their website to help you determine your face shape.

So, what shape of glasses should those with oblong faces opt for? According to Zeelool, there are four shapes that are most flattering for this face shape - medium-sized [round eyeglasses](#), [browline glasses](#), [cat eyeglasses](#), and tall square glasses. These shapes help to balance out the length of the face and add width, creating a more balanced and proportionate look.

Medium-sized round glasses are a classic and timeless choice for those with oblong faces. The round shape helps to soften the angles of the face and add width. Browline glasses, with their thicker top frame and thinner bottom frame, also work well for oblong faces as they draw attention to the upper part

of the face. Cat eyeglasses, with their upswept corners, add a touch of femininity and balance out the length of the face. And lastly, tall square glasses, with their bold and angular frames, add width and create a more balanced look for oblong faces.

Finding the perfect pair of [glasses](#) for your oblong face has never been easier, thanks to Zeelool's expert suggestions. With a wide range of shapes and styles to choose from, you're sure to find the perfect pair that not only flatters your face shape but also reflects your personal style.
