Recognition for Excellence in Broking

Annie Kane, Managing Editor of *The Adviser*, acknowledged the critical role of brokers in navigating tighter servicing conditions and empowering borrowers:

“Over the last financial year, brokers have played a crucial role in helping borrowers navigate tighter servicing conditions and overcome barriers to accessing finance.

“Whether helping first home buyers access appropriate support and schemes to get their first home loan, helping borrowers refinance to better rates and escape from ‘mortgage prison’, or ensuring that small business owners have the finance they need to grow, it’s clear to see why a record proportion of borrowers are choosing brokers for help in accessing credit.

“The finalists this year deserve recognition for their dedication, hard work, and commitment to ensuring borrowers can effectively manage their repayments and find the best solutions to meet their needs.

“Congratulations to all the finalists who are driving the broking industry forward.”

Victoria Coster, CEO and Credit Repair Specialist of Credit Fix Solutions expressed gratitude for the recognition:

“We are humbled to be named a finalist in the Better Business Awards 2025. This acknowledgment reinforces the strength of our services and our dedication to connecting with the community and

engaging with clients.”

"Credit Fix Solutions remains committed to delivering exceptional solutions for borrowers and contributing to the growth of the mortgage and finance industry", she added.
