San Mateo, California Jan 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - D4Ds, a Saudi Arabian management consulting firm dedicated to fostering a data-driven culture and transforming businesses into data-centric organizations, has entered into a strategic partnership with Orion Governance, the Information Intelligence Company and provider of the Enterprise Information Intelligence Graph (EIIG). This collaboration aims to enhance data governance solutions and better serve clients in Saudi Arabia.

Through this partnership, D4Ds will expand its data management and governance consulting offerings by leveraging Orion Governance's EIIG platform. EIIG is a comprehensive, self-defined data fabric and active metadata solution that includes capabilities such as data lineage, data cataloging, impact analysis, and metadata analytics.

"We are thrilled to partner with D4Ds to grow our presence in Saudi Arabia, a dynamic and rapidly expanding market for Data and AI," said Ramesh Shurma, Founder and CEO of Orion Governance. "D4Ds's vision of enabling organizations to become data-centric aligns perfectly with ours. We look forward to collaborating with this new partner to accelerate digital transformation for government agencies and enterprises across Saudi Arabia."

Dr. Fawaz Bindelaim, VP of Projects of D4Ds, commented: "By leveraging EIIG's robust capabilities, we can help our clients establish a trusted data foundation for AI and analytics initiatives, align their data strategies with business objectives, fast-track application modernization, and ensure compliance with the National Data Management Office's requirements and other regulations."

"We are highly impressed by D4Ds's technical and business expertise, as well as their deep understanding of the Saudi market.," Niu Bai, Head of Global Business Development of Orion Governance, added. "By joining forces, we can delight our clients with better solutions and services, and grow our business together."

About D4Ds

About Orion Governance

Orion Governance was founded in 2017 with a mission to disrupt the information management space. The company's Enterprise Information Intelligence Graph (EIIG) leverages deep knowledge of technologies, AI/ML and LLM's in providing a vendor/technology/cloud agnostic single-pane view and near real time capabilities through the most comprehensive knowledge graph in the industry. The EIIG has persona-based visualizations to create a self-defined data fabric with detailed data lineage, cataloging, traceability, augmented data quality, and analytics capabilities; ML/AI/GenAI and automation enables enterprises to take control of their complex IT landscape in near real-time. Customers include Global 5000 companies in banking insurance, retail, healthcare, telecom, and information technology. Orion's technology has been pivotal to a number of Global banks in helping

them comply with Basel III endgame and other critical regulations. In addition to this, key use cases include acceleration of cloud migration/modernization, data governance and regulatory compliance, and cost optimization. Orion is headquartered in San Mateo, California, with global offices in other US cities, Estonia, Sweden, Singapore, Germany, India, and Ecuador. www.oriongovernance.com
