

Dr. Sandra Sha: Pioneering Excellence in Radiation Oncology at Central Florida Cancer Institute

Passionate About Transforming Cancer Care in Florida

New York City, New York Dec 4, 2024 ([Issuewire.com](https://www.issuewire.com)) - Dr. Sha, a highly regarded radiation oncologist, continues to make significant strides in cancer care at the Central Florida Cancer Institute in Davenport, Florida. With an impressive academic and professional background, she is dedicated to providing high-quality treatment and advancing the field of radiation oncology.

Education-wise, she earned her medical degree from Tufts University School of Medicine following her graduation with honors in Integrative Biology from the University of California, Berkeley. Her rigorous training included an internship in internal medicine at Harvard's Mount Auburn Hospital and a residency at the prestigious Harvard Joint Center for Radiation Therapy, where she honed her expertise in radiation oncology. She is board-certified by the American Board of Radiology, ensuring her commitment to maintaining the highest standards of medical practice.

Over the years, Dr. Sha has held numerous leadership roles, including Service Chief of Radiation Oncology at Lakeland Regional Medical Center and board member positions with the American Cancer Society. Her dedication extends beyond clinical practice as she actively participates in community initiatives, serving as an Event Chair for Making Strides Against Breast Cancer.

Affiliated with several healthcare institutions, including AdventHealth Heart of Florida and Lakeland Regional Health Medical Center, she is committed to leveraging her expertise to improve patient outcomes. She is a member of prestigious organizations such as the American Society for Therapeutic Radiation Oncology and the American Society of Clinical Oncology, where she stays on the cutting edge of advancements in cancer treatment.

Dr. Sha's research contributions, particularly in breast cancer, have earned her recognition in the medical community. She has presented her findings at numerous conferences, including the renowned San Antonio Breast Conference and the American Brachytherapy Society meetings. Her research on the impact of mammograms on the survival of elderly breast cancer patients showcases her commitment to improving treatment protocols and patient care.

Recognized as a Distinguished Physician by the Florida Medical Association and recipient of multiple awards, including the "Top Oncologist in Florida" and "Most Compassionate Physician," she exemplifies dedication and excellence in her field. Her insights and expertise have also garnered media attention, with appearances on ABC News and PG TV programming.

Dr. Sha is passionate about improving cancer care in Florida and is committed to advancing research and education in radiation oncology. Her work not only impacts her patients but also contributes to the broader medical community.
