Positive feedback from customers- The homepage of the official website shows testimonials of past customers. The company has received 5 stars and positive reviews from most customers.

FloorON- A Trusted name for residential and commercial projects

Residential epoxy floor coating in Melbourne

The FloorON team is ready to provide epoxy solutions to add aesthetics and practical value to floorings. Epoxy coatings for the garage floor make the surface impact-resistant. Proper coatings prevent damage from heavy vehicles and oil spills. FloorON ensures that its garage flooring technology makes the surface safe and slip-resistant. It uses polyaspartic and polyurethane to seal the epoxy coatings. At FloorON, customers will find detailed information about the coat sealants. The FloorON experts prefer using polyaspartic to ensure the fastest curing and zero cracking solutions.

The team also provides [basement epoxy flooring Melbourne](#) and turns a simple basement into an awesome living space. Many homeowners have asked FloorON to replace their laminate and carpet flooring with epoxy coating. The top coat makes it easy to clean the floor.

Residential property owners can call FloorON for **patio epoxy flooring** services. Outdoor flake flooring is an affordable alternative to other costly flooring solutions. The qualified experts at FloorON guarantee that **patio epoxy flooring Melbourne** is resistant to cracking and peeling issues. The coating also

provides UV protection to the outdoor flooring.

[Commercial epoxy flooring Melbourne](#)

Commercial property owners hire theFloorON team for different flooring solutions.

Showroom owners often want to invest in floor coating installation to attract customers. FloorON is a reliable destination to avail **of showroom epoxy flooring** services. Especially if the showroom receives heavy traffic every day, the epoxy coating provides a lasting solution.

Car showroom owners also choose epoxy because of its exceptional hardness. FloorON's experts ensure proper installation of the coating to prevent dents and scratches. So, call the efficient team for [showroom epoxy flooring Melbourne](#).

Moreover, many restaurant owners have called the FloorON's team to make their flooring shiny and luxurious. Cleanliness is the most significant factor in every food manufacturing. [Restaurant epoxy flooring Melbourne](#) makes the surface easier to clean. What's more, the epoxy-coated surface does not absorb liquids that cause tarnish. Thus, the stain-resistant restaurant epoxy flooring maintains an aesthetic interior.

Commercial property owners with warehouses for goods storage also invest in epoxy flooring. FloorON has served several warehouse owners with epoxy coating and reduced maintenance costs. The fully coated warehouse floors remove concerns about concrete dust. It also saves the floor from cracking and chipping problems. The epoxy resin layer adds a glossy finish to the flooring surface.

FloorON experts recommend different colours for every zone of the warehouse. For example, safety yellow arrows on the floor indicate walk areas for workers. These colour indicators keep employees safe from accidents. Most warehouse owners prefer a rough floor texture to increase traction.

Different flooring services fromFloorON

Epoxy Full Flake System

FloorON recommends using an Epoxy Full Flake System for both commercial and residential spaces. The creative designers will apply coloured flakes over the epoxy coating. The flakes make the floor surface beautiful by adding texture. The attractive slip-resistant flooring ensures safety and resists wear and tear. The professional FloorON team applies a 5-coat system to provide the best result. Within 24 hours of application, the surface becomes ready for foot traffic. But, car driving is not allowed before 72 hours.

Stone Effect Flooring System

Many commercial and residential property owners prefer stone effects on their floor surfaces. The floor will look like natural stones and ensure high longevity. Various finishes and stone patterns are available to complement the existing décor style.

The FloorON team starts the project with the floor grinding process to remove grease and dirt. The experts will also repair cracks and imperfections in the floor surface.

Epoxy Plain Colour System

The plain colour system is best for those who prefer a minimalistic look on the floor. There are several solid colour options to match the aesthetics. The peel-resistant epoxy floors remain intact for a number of years. Homeowners may upgrade their existing flooring surface with this epoxy coating.

Anti-slip floor system

Safety is important for a home and workplace. So, FloorON offers a special anti-slip flooring solution. The unmatched grip ensures no safety risk to users. Anti-slip epoxy also adds durability to the floor surface.

FloorON has gained the attention of several residential and commercial property owners in Melbourne. Flooron.com.au has made it easy to find local professionals for epoxy coating services. The website allows users to choose the Melbourne suburbs where customers want the services. The local experts will respond quickly to the request and provide the best solution.
