

Kristena Prater's *Tessa Eyes on the World*: A Tale of Self-Discovery and Global Responsibility

Babylon, New York Dec 23, 2024 ([IssueWire.com](https://www.IssueWire.com)) - *Tessa Eyes on the World*, co-authored by Kristena Prater and Salodius Byrd, offers readers a powerful journey into self-discovery, social consciousness, and the courage to confront the world's most pressing issues.

Inspired by the life and legacy of Tessa Marie Horan and her siblings, *Tessa Eyes on the World* follows a young woman's transition from the familiar landscapes of the American West to the cultural richness of India, Nepal, and the Pacific Kingdom of Tonga. In search of clarity and discipline, Tessa's spiritual quest collides with personal tragedy when her brother's life-changing accident ignites a deeper purpose.

Through experiences spanning human trafficking, environmental crises, and the marginalization of communities, Tessa's passion for justice and compassion intensifies. Her commitment to serving others takes shape as she joins the Peace Corps, working with local communities and learning to balance her ambitions with her family ties.

Beyond the story, the book challenges readers to examine their paths, questioning the role of art, culture, and personal responsibility. As Prater explains, "Tessa's journey represents the science of people—how we grow and transform through love and adversity. I wanted readers to see that even in tragedy, we hold the power to uplift ourselves and our communities."
