

zHealth Introduces New Mobile Apps to Enhance Provider-Patient Communication

zHealth, an industry-leading provider of all-in-one chiropractic software, is excited to launch its new Mobile Apps for both providers and patients.

zHealth Launches Mobile Apps for Provider-Patient Connectivity

San Francisco, California Dec 31, 2024 ([IssueWire.com](https://www.issuewire.com)) - Streamlining Practice Management and Patient Care Anytime, Anywhere

zHealth, an industry-leading provider of all-in-one chiropractic software, is excited to launch its new

Mobile Apps for both providers and patients. Available on iOS and Android, these apps let providers manage their practices with ease and help patients stay involved in their care—anytime, anywhere

“At zHealth, we’re dedicated to making life easier for both providers and patients,” said Sukhi Singh, CEO. *“This app is a reflection of that mission, offering tools that simplify workflows and enhance the care experience for everyone.”*

For Patients: Care at Your Fingertips

The zHealth Mobile App gives patients the tools they need to manage their chiropractic care conveniently from their smartphones.

Key Features:

- **Effortless Appointment Management:** Book, reschedule, and check-in for appointments—from their mobile devices.
- **Stay Organized:** Receive timely reminders to ensure patients never miss a session.
- **Enhanced Communication:** Easily interact with providers for a better care experience.
- **Coming Soon:** Patients will be able to access personalized exercise recommendations and instructional videos.

For Providers: Manage Practice on the Go

Chiropractors can now manage their practice on the go with a comprehensive suite of features designed to streamline daily operations and enhance patient engagement.

Key Features:

- **Seamless Appointment Management:** View, manage, and schedule appointments on the go.
- **Flexible Calendar Management:** Block time for breaks or holidays to maintain a healthy work-life balance.
- **Coming Soon:** Secure payment processing directly through the app.
- **Coming Soon:** Providers will be able to create and customize their own exercise library within the zHealth Provider App

“The zHealth app is just the beginning, and we look forward to continuously enhancing it based on user feedback to drive better outcomes for both doctors and patients,” added Sukhi Singh.

The zHealth Mobile Apps are available on iOS and Android. The apps can be downloaded from:

App Store: <https://apps.apple.com/us/app/zhealth-wellness/id6596801126>

Google Play Store: <https://play.google.com/store/apps/details?id=com.zHealth.wellness>
