

Anunta Receives CIO CHOICE 2025 Recognition in Multiple Categories

Anunta earns CIO CHOICE 2025 recognition in five categories, including Data Center Infrastructure, Virtual Workforce Solutions, DaaS, Secure Digital Workspace, and Managed Endpoint Services, showcasing its innovation and excellence.

Mumbai, Maharashtra Jan 17, 2026 ([IssueWire.com](https://www.IssueWire.com)) - Anunta, a prominent provider of outsourced digital workspace solutions, is proud to announce that it has been honored with the CIO CHOICE 2025 recognition in the **Large Enterprise** category in *FIVE* distinguished areas:

- Data Center Infrastructure Management
- Virtual Workforce Solutions
- DaaS (Desktop-as-a-Service)
- Secure Digital Workspace
- Managed Endpoint Services

This prestigious recognition highlights Anunta's unwavering commitment to innovation, superior service delivery, and providing flexible, secure, and scalable digital workspace solutions.

A Strong Track Record of Trust & Innovation

For over a decade, Anunta has been at the forefront of the Desktop-as-a-Service (DaaS) industry, consistently pushing the envelope in delivering secure, scalable, and employee-centric solutions. As a leader in the Virtual Workforce Solutions space, Anunta has empowered businesses globally to maintain a seamless, productive workforce regardless of geographic boundaries.

In the 2024 edition of CIO CHOICE, Anunta earned the honor of "**The Most Trusted Brand**" in both Desktop-as-a-Service and Virtual Workforce Solutions categories, further solidifying its leadership in the space. This is the second consecutive year Anunta has been recognized for its excellence in DaaS and Virtual Workforce Solutions.

Sivakumar Ramamurthy, CEO of Anunta, expressed his gratitude, saying, "Winning at CIO CHOICE 2025 is a testament to our focus on excellence and innovation. To be recognized once again in DaaS and now in multiple new categories like Managed Endpoint Services and Secure Digital Workspace, reinforces our commitment to delivering cutting-edge solutions that enhance business outcomes. We thank the CIO community for placing their trust in Anunta, and we will continue to innovate and expand our offerings to help organizations navigate the evolving digital workspace."

Maneesh Raina, COO of Anunta, also shared his enthusiasm, stating, "This recognition motivates us to stay ahead of industry trends and continue delivering impactful, customer-first solutions. Our customers' trust empowers us to push boundaries and shape the future of work with secure and scalable solutions."

With this new recognition, Anunta remains committed to delivering the highest standards of service and ensuring that businesses are equipped with the best possible tools to navigate today's dynamic digital landscape.

Anoop Mathur, Founder of CORE Media, said, "Congratulations to Anunta for earning the prestigious CIO CHOICE 2025 Trust Seal. This recognition is a true reflection of the brand's commitment to

delivering exceptional experiences to enterprise customers. The trust bestowed upon Anunta by India's CIOs and Digital Leaders, amidst shifting consumer trends in a dynamic economy, is truly commendable. In a time where technology propels business advancement, the CIO Choice accolade solidifies Anunta's position as an industry pioneer."

About CORE Media

Founded in 2012, CORE Media (Centre of Recognition & Excellence) is a multi-platform new-age niche media company that owns and operates proprietary marketing events, account-based marketing (ABM) solutions, and digital platforms with a focus on ICT Enterprises, the CIO Community, and Technology Startups. Its programs have a combined reach of around 56,000 ICT decision-makers and influencers across all key sectors.

About Anunta

Anunta builds secure and compliant digital workspaces across private, public, and hybrid clouds for enterprises. Our comprehensive range of managed virtual desktop, managed endpoint & cloud services allows users to access applications and data securely. Our managed services are powered by our platforms, which leverage AI & Machine Learning to automate and optimize operations. We've been consistently featured in the Gartner Magic Quadrant for Desktop as a Service. With over a decade of experience, we've successfully migrated 750,000+ remote desktop users, boosting security, enhancing workforce productivity, and delivering superior end-user experiences.
