Kangra, Himachal Pradesh Jan 8, 2026 (IssueWire.com) - Get ready to spend a fantastic weekend this summer in the Himalayas and rejuvenate yourselves. The largest music and art festival of the mountains has announced its 12th season on June 14&15, 2025.

In the era of concerts and festivals, this festival has an edge of being in the mountains and creating a unique experience with a mix of culture, music, art, exhibitions, healing, camping, trekking, and more!

After the mega 11 seasons, the original music and art festival from the mountains is all set to create musical magic for the twelfth time.

Bir Music Festival was started by Alakhananda Sharma, the lady running the show with grace, during the pandemic. The festival was aimed at giving better tourism to the village of Bir, which lies in the Kangra district of Himachal Pradesh. Since then, the festival is organised twice a year and has been a great success. Over time, it has contributed heavily to the flow of tourism to this village. The best part of this festival is that it only promotes original music. Attendees happily explore new artists and rejuvenate themselves. Since this is a residential, healing festival too, the workshops, healing sessions, and activities make a lot of impact on all attendees.

This season will be a non-stop 50-hour festival with two stages of music.

To add to the experience, a flea market, a food court, an activity area, and a large campsite are going to be set up in the venue.

With a beautiful aim of promoting women entrepreneurship and eco-startups, the festival invites women entrepreneurs and sustainable startups to the flea market and networking session.

Thousands of people have attended the festival from across the country and abroad and have appreciated the initiative.

This season has added many new features that the team says to reveal slowly and surprise its community.
