Los Angeles, California Jan 9, 2025 (Issuewire.com) - Bristol Healthcare Services Inc., a leading provider of expert revenue cycle management and [cardiology billing services](#), is pleased to announce the expansion and restructuring of its Cardiology Billing Division. With a significant increase in the number of cardiologists joining our client base in recent years, this strategic enhancement is designed

to deliver tailored solutions that address the unique needs of cardiologists and cardiology practices.

New Leadership for Enhanced Expertise The expanded Cardiology Billing Division will be spearheaded by Kelly Johnson, an experienced and committed manager with over 15 years of cardiology billing and coding expertise. Kelly Johnson's extensive experience includes working with hundreds of cardiologists, making her uniquely qualified to lead the division. Under her leadership, the division will oversee all aspects of cardiology coding and billing functions, ensuring that our clients receive the most accurate, efficient, and comprehensive billing support available.

"We have been consistently fine-tuning our revenue cycle processes across all specialties. With the increase in the number of cardiologists as clients, the need for restructuring this division was inevitable. We moved ahead and expanded this billing division with a new and more experienced manager heading it," said Jay Ganesh, Founder and CEO of Bristol Healthcare Services, Inc.

Comprehensive Cardiology Billing Services

Understanding the complexities and specific requirements of cardiology billing, our expanded division provides full-scale cardiology billing services that guarantee scalable resources, streamlined revenue cycle management, improved net revenue, and patient satisfaction. Our cardiology billing services ensure:

- **Accurate Coding and Billing:** Utilizing the latest coding practices and billing procedures to ensure maximum reimbursement and compliance with industry regulations. Our team is well-versed in the complexities of cardiology coding, which is critical to reducing claim denials.
- **Effective Claims Management:** Proactive management of claims to reduce denials and expedite payments. Given the frequent changes in cardiology codes and the stringent requirements for medical necessity by Medicare and commercial payors, our team ensures that all claims are meticulously processed.
- **Revenue Cycle Optimization:** Streamlined processes to enhance cash flow and financial performance for cardiology practices. Our services help guide physicians and their staff through the billing process, ensuring timely and complete payment for all services rendered.
- **Advanced Reporting:** Detailed and transparent reporting to provide insights into financial health and billing performance, allowing cardiologists to make informed decisions about their practice management. Learn more about our cardiology billing services.

Client-Centric Approach

At Bristol Healthcare, we prioritize our clients' success by offering personalized services and support. Our client-centric approach ensures that cardiologists can focus on delivering exceptional patient care while we handle the complexities of their billing and revenue cycle management. We are committed to guiding our clients and assisting them in expanding their practice by ensuring they are reimbursed fully for their services.

Certified Team with Specialized Knowledge

Our cardiology billing division is staffed with a team of certified and experienced professionals who possess in-depth knowledge of cardiology-specific billing and coding requirements. This expertise ensures that our clients benefit from:

- **Enhanced Accuracy:** Reduced errors and improved claim acceptance rates through meticulous

attention to detail.

- **Regulatory Compliance:** Up-to-date knowledge of ever-changing healthcare regulations to maintain compliance and avoid penalties.

- **Personalized Support:** Customized solutions and dedicated account management to meet the unique needs of each cardiology practice. Learn why top healthcare organizations choose to partner with us.
