Dallas, Texas Jan 19, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Today marks the launch of **MinoxRX+**, an innovative hair growth serum that is revolutionizing the way men tackle hair loss. Combining **5% Minoxidil**, the leading ingredient for promoting hair regrowth, with **1% GHK-Cu peptides**, known for their powerful regenerative effects, MinoxRX+ provides a cutting-edge solution that works synergistically to boost hair health and stimulate growth.

Hair thinning affects millions of men worldwide, and until now, most treatments have focused solely on Minoxidil.
