

New Book Release Title: The Oracle Reborn.

The Oracle's Prophecy beyond Borders and Time.

Bilgi, Karnataka Jan 24, 2025 ([IssueWire.com](https://www.IssueWire.com)) - New Book The Oracle Reborn. Explores Orwellian Fears in the AI Age, A Thought-Provoking Journey into Power, Truth, and Global Unity

What if the book 1984 by George Orwell, wasn't just a dystopian warning but a prophecy unfolding today? In 'The Oracle Reborn', visionary author Vittal Koppal, bridges past and future, exploring the rise of AI, digital surveillance, and global unity in a world at a crossroads.

With thought-provoking insights, this book compels readers to rethink Orwell's predictions in the context of AI-driven governance, mass media control, and the quest for true global citizenship. As debates over digital privacy, censorship, and AI ethics intensify, 1984 To 2025 serves as both a cautionary tale and a beacon of hope.

"Technology is neither good nor evil, it's the vision behind it that defines our fate," says Vittal Koppal, emphasizing the power of human choices in shaping the future.

A Timely Wake-Up Call for the Digital Age

Drawing parallels between, 1984, by George Orwell, and present-day realities, The Oracle Reborn, explores:

AI's Role in Power and Control: How artificial intelligence influences governance, economy, and personal freedoms.

Surveillance and Privacy:

Are we willingly surrendering our freedoms for convenience?

Global Citizenship:

Can humanity rise above political divides to build a unified world?

The Battle for Truth:

In an era of misinformation, who controls the narrative?
