

QFX, a leading speaker technology innovator, announces its new 2025 consumer and professional speaker lineup.

CES 2025, LAS VEGAS – January 6, 2025 – QFX introduces its latest innovations in speaker designs at CES with its new All-Terrain (BT-ZX), Translucent Motion (TMS-ZX), Transparent Motion (TPS) and Pro (E-Series) Speaker lines.

Vernon, California Jan 7, 2025 ([issuewire.com](https://www.issuewire.com)) - QFX, a leading speaker technology innovator, announces its new 2025 consumer and professional speaker lineup.

QFX introduces its latest innovations in speaker designs at CES with its new All-Terrain (BT-ZX), Translucent Motion (TMS-ZX), Transparent Motion (TPS), and Pro (E-Series) Speaker lines. Key features within each speaker line include:

All Terrain (BT-ZX)

- Rugged, all-terrain speaker designs offering IPX-level weather-rated performance for use indoors and outdoors.
- QFX signature sound utilizing acoustically-optimized speaker design with deep bass performance.

Translucent Motion (TMS-ZX)

- Exhilarating Translucent Motion (TMS) lighting effects that deliver a captivating 360-degree light show providing a unique, immersive audiovisual experience elevating the indoor or outdoor party space.
- A sonically-tuned bright-white translucent enclosure that sets a new standard in audio/lighting design.
- IPX level is water-rated allowing consumers to enjoy powerful sound and dramatic lighting effects in outdoor environments.

Transparent Motion (TPS)

- New, distinctive front cabinet transparent lighting panel designs that evoke a gaming system aesthetic.
- Available in both single-speaker driver and dual-drive designs for every occasion.

Pro (E-Series)

- High-power Bi-Amp speakers with professional audio inputs and outputs.
- Advanced digital, all-in-one master control plus USB music player and front LED party lights.
- Available in AC or AC/Battery PA speaker designs.

Visit QFX at CES 2025 in the Central Hall, Booth #21032.
