Hyderabad, Telangana Jan 21, 2025 (Issuewire.com) - Skedoc is a leading healthcare platform building a world of health focusing on delivering reliable, high-quality health care for every individual

patient wherever they are in India. As of Jan 2025, It has more than 9,000 healthcare providers, 4,000 hospitals, and more than 9,000 primary medical clinics in India, serving lakhs of patients annually. They aim to provide an appropriate health care provider, allowing access to quality health care and lowering the overall consultation cost.

Co-founder & CEO of Skedoc, Dr. Narasimha Rao, says, *"We are compelled to act when we identified a clear need to find the right specialist. We took the opportunity to simplify the complex doctor appointment booking procedure and put tremendous efforts into connecting a specialist with the patient - keeping people well and out of hospitals. We look forward to expanding our services to every nook and cranny of India, helping people find and get the best medical care at the right time - Our mission is to improve the lives of patients in India."*

The journey from Kick Starting to Becoming an Aggregator for Clinical Excellence

Skedoc is not just another healthcare platform; its motto behind launching into the Indian healthcare industry is structured to connect the "Right Doctor to get the right Advice." It has helped patients to find the right specialists for their health concerns and book online doctor appointments to get high-quality health care, including quicker and immediate access to super specialty hospitals and primary care clinics in life-saving emergency conditions. 'Connecting patient with the right specialist' highly contributed to the significant success of [Skedoc](#) in just a few months of its launching, which continues - all while being recognized as the top patient's choice healthcare platform in India over the years.

Being a Go to HealthCare Platform in India

Skedoc was the most required change in the healthcare sector a few years ago. Consulting a doctor and consulting the right specialist is not the same, and Dr. Narasimha Rao, the Co-founder and & CEO of Skedoc, spotlighted the same. Since then, the Skedoc platform has been paving the healthcare care access, contributing to finding the right specialist care while closing the gaps. A quick online doctor appointment and scheduled visit your [nearest hospital in Hyderabad](#) or [healthcare provider in Kolkata](#) to avoid prolonged wait times make it an irreplaceable platform.

A Better User Experience

Skedoc has a user-friendly design, easy navigation, and improved search functionality to find the required information without hassle. It is a fully responsive platform, allowing patients or their family members to browse conveniently and book a doctor's appointment online within the budget. Search with a doctor's name, hospital name, treatment, or specialization, like a cardiologist, urologist, or neonatologist, to get the necessary details without delay.

Partnership & Its Future Plan

Skedoc was launched to revolutionize the healthcare industry, and over the years, it has proved to be the most rewarding choice for patients. Their main aim is to match the needs of every individual's requirement and help millions of patients find the best specialist.

The team of Skedoc says, *"Our platform is already an integral part of many people's lives in India. It is an emotion for us and carries great trust. We will see a significant step towards broadening our healthcare landscape in the coming days."*
