

Skinny Water™: A Dieter's Dream Peace Mountain Introduces Skinny Water™

– A Low-Calorie Beverage That Supports Weight Loss and Tastes Like Spring Water

Beverly Hills, California Jan 15, 2025 (Issuewire.com) - Peace Mountain Natural Beverages Corp. proudly announces the launch of its revolutionary new beverage, Skinny Water™. This great-tasting spring water is infused with powerful, natural ingredients designed to support weight management and promote overall health, making it the ultimate choice for dieters and health-conscious individuals alike.

Skinny Water™ is a high-magnesium spring water enhanced with Super CitriMax™, a natural appetite suppressant made from Garcinia cambogia fruit extract. Alongside Super CitriMax™, this unique formula includes:

- ChromeMate®: A micro-mineral that boosts energy production and curbs sugar cravings.
- L-Carnitine: An amino acid that enhances metabolism, fat burning, and endurance.
- Ribose: A vital nutrient that increases energy, reduces body fat, and shortens recovery times.

With its patent-pending formula, Skinny Water™ redefines the bottled water category by offering a functional beverage that's both effective and delicious. Its tagline, "For those who are slim and want to stay that way," reflects its appeal to individuals striving to maintain a healthy, fit lifestyle.

A Supermodel's Secret Weapon

1999 Miss Scandinavia Jonna Kauppila, a spokesperson for Super CitriMax™, credits the ingredient with helping her achieve her weight loss goals. Using Super CitriMax™, Jonna lost 14 pounds to prepare for the 1998 Miss Finland competition, which she won. She later secured the Miss Scandinavia title in 1999, calling the ingredient a "determining factor" in her success.

Super CitriMax™ works by reducing appetite and inhibiting fat production, helping users feel full naturally and safely. This all-natural plant extract has become the number one selling safe diet ingredient worldwide.

Magnesium for Holistic Health

In addition to its weight loss benefits, Skinny Water™ is enriched with magnesium, an essential mineral for heart health, strong muscles, and calm nerves. Magnesium also supports bone health and can help prevent migraines and PMS, offering a well-rounded health boost.

Kosher-Certified and Patent-Pending

Skinny Water™ features a kosher-certified formula that tastes just like pure spring water, offering a refreshing and guilt-free way to stay hydrated and support a healthy lifestyle.

Important Notes

- Skinny Water™ is not intended to diagnose, treat, cure, or prevent any illness.
- Statements in this press release have not been evaluated by the FDA.
