

Tremplastic Surgery AG Unveils Revolutionary Anti-Aging Skincare Line

TREMP
PLASTIC SURGERY

Cham, Zug Jan 31, 2025 ([IssueWire.com](https://www.issuewire.com)) - *Cham, Switzerland – January 31, 2025* – Tremplastic Surgery AG, under the esteemed leadership of Dr. Mathias Trempl, is proud to announce the launch of its groundbreaking skincare products: the Rejuvenating Anti-Aging Cream and Face Brightening Serum. These innovative formulations harness the power of Swiss Alpine Rose extract and advanced peptides to combat visible signs of aging, offering users a rejuvenated and radiant complexion.

A Fusion of Nature and Science

The Rejuvenating Anti-Aging Cream and Face Brightening Serum are meticulously crafted to address common skin aging concerns such as fine lines, wrinkles, and sunspots. Central to these products is the Alpine Rose Active, derived from the resilient *Rhododendron ferrugineum*, a flower that thrives in the extreme conditions of the Swiss Alps. This potent extract supports the skin's natural regenerative abilities, enhancing its health and vitality.

Complementing the Alpine Rose Active is the Perfection Peptide P3, an advanced ingredient that stimulates collagen production. Increased collagen levels improve skin elasticity, reduce sagging, and restore firmness, resulting in a more youthful appearance.

Visible Results and Comprehensive Benefits

Regular use of the Rejuvenating Anti-Aging Cream leads to a noticeable reduction in fine lines and wrinkles. The Face Brightening Serum works synergistically to even out skin tone and combat dullness, leaving the complexion refreshed and glowing.

The rich, smooth texture of these products ensures deep hydration without a greasy residue, making them suitable for all skin types, including sensitive, oily, and dry skin.

Commitment to Purity and Quality

Trempp Plastic Surgery AG is dedicated to providing skincare solutions free from artificial fragrances, mineral oils, silicones, PEG/PPG emulsifiers, and other potentially harmful substances. This commitment ensures that users receive only the purest and most effective ingredients in their skincare regimen.
