

Asha Moudgil, MD Joins Children's National Hospital's Pediatric Team

Enhancing Care for Young Patients Post-Renal Transplant

New York City, New York Feb 13, 2025 ([IssueWire.com](https://www.issuewire.com)) - Children's National Hospital is proud to announce the continued dedication of Dr. Asha Moudgil, MD, to its Pediatrics Department. With her extensive training and specialized expertise in pediatric nephrology, Dr. Moudgil has been a vital member of the medical team, focusing on the long-term care of children who have undergone renal transplantation and those facing complex nephrotic syndrome.

Dr. Moudgil earned her medical degree from the esteemed Government Medical College and completed her internship and residency at the renowned All India Institute of Medical Sciences. Furthering her expertise, she completed a fellowship at UCLA School of Medicine, where she honed her skills in pediatric nephrology and gained valuable insights into the intricacies of post-transplant care.

Dr. Moudgil's research interests are pivotal to her clinical practice. Her primary focus is on the long-term health and development of children after renal transplantation, particularly in identifying and addressing nutritional deficiencies, especially vitamin D, as well as monitoring bone and cardiovascular health. She is also dedicated to tracking viral infections, including Epstein Barr Virus, which can lead to serious complications such as post-transplant lymphoproliferative disorder.

"Children's National Hospital is committed to providing the highest quality of care to our young patients," said Dr. Moudgil. "I am honored to be a part of such a dedicated team and to contribute to the ongoing research and clinical efforts that help improve the lives of children facing kidney-related challenges."

Dr. Moudgil is fluent in Hindi, Punjabi, and English, allowing her to communicate effectively with a diverse patient population. Her understanding of cultural nuances enhances the care experience for families, ensuring that each child receives personalized, compassionate treatment tailored to their needs.

As Children's National Hospital continues to lead in pediatric healthcare, the expertise of Dr. Moudgil reinforces its commitment to addressing complex medical issues and improving outcomes for children with renal conditions. Her contributions to both clinical practice and research will undoubtedly make a lasting impact on the lives of her patients and their families.
