

Benú Handmade Ethnic Creations

African Handmade Decoration

Athens, Attica Feb 6, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Benú** is an Athens-based company that has been representing **Afrohemian Decoration** for the past ten years.

Our goal is to bridge the diverse cultures of the **African continent** with the rest of the world and to incorporate the creations of our artists into the design of modern homes and hotels.

We aim to contribute to the creation of interior spaces that are not only visually appealing but also deeply significant, culturally resonant, and environmentally responsible.

At **Benú**, we embrace your needs and understand the distinct character of your project. Through our handmade products, we bring your vision to life, reflecting the unique identity of each endeavor—just as unique as the creations of our artisans.

If you are an interior decorator or architect, do not hesitate to contact us. **Benú**'s creations are ideal for your next large or small interior design project, from boutique or luxury hotels and residences to restaurants that you want to approach in a more holistic way.

Our products are made from natural or recyclable materials; they reflect their rich cultural origins and create a fresh and colorful atmosphere that mentally transports and relaxes us.

African elements, with their strong ethnic character, are combined with contemporary decoration trends, adding a unique aesthetic and surplus value to the living space that evokes the senses!
