****About CineAmerica****

CineAmerica fills a unique niche in the streaming landscape by curating a treasure trove of content that defined that era of American Late Night TV viewing as "Insomnia Heaven" From obscure “B” movie faves like *Plan 9 From Outer Space* (1959) to Martial Arts compilations such as *Kung Fu Kings of the 70s & 80s* (2023) the platform celebrates the eclectic and often irreverent spirit of American Late Night TV from the 60s & 70s. Scott Sobel, founder of Cineamerica Studio emphasizes:

"We're bringing back the freewheelin' airwaves of the past—no algorithms, no ads, just raw, unfiltered entertainment. This is for fans who crave something beyond Netflix's polished offerings."
